MIDNIGHT.

CONGRESS.

Bills Introduced.

THE APPORTIONMENT BILL.

Spanish-Cuban War.

FINAL ADJOURNMENT.

WASHINGTON, January 29, 1872.

SENATE.

AN OMISSION.

Mr. SUMNER called attention to the omission from the *Globe* of Mr. Hamlin's suggestion on Friday, that before voting on his (Sumner's) Equal Rights amendment, the Senate should sing "Old Hundred." He said the omission, which was made at the request of Mr. Hamlin, rendered his own subsequent remarks unintelligible.

PUBLIC PARK.

Mr. COLE called up a bill leasing a portion of the Præsidio reservation to San Francisco for a public park.

Mr. CASSERLY wished to examine the bill. It went over.

KU KLUX WITNESSES.

The morning hour was consumed in a discussion on a resolution for the arrest of Girt V. Comp, who refused to testify before the Ku Klux Committee in South Carolina.

POSTPONED.

The Amnesty bill was in order, but was postponed till to-morrow, with the understanding that no vote would be taken.

CONFERRING JURISDICTION.

Mr. BLAIR, from the Committee on Private Land Claims, reported without amendment a bill conferring jurisdiction on the Court of Claims to hear and determine the suit of Carondalet *versus* the United States.

BILLS INTRODUCED.

Bills were introduced and referred as follows:

By Mr. BLAIR, authorizing the Secretary of the Treasury to pay for cotton seized by agents of the United States after June 30th, 1865.

By Mr. HOWE, allowing homestead settlers and the heirs of homestead settlers burned out in the States of Minnesota, Wisconsin and Michigan, until the 1st of January, 1873, to rebuild on and re-occupy their homestead lands.

APPORTIONMENT.

The Apportionment bill was then taken up.

Mr. MORRILL (Vt.) resumed his remarks. He preferred the Senate substitute to the House bill. He said the House bill would do injustice to at least fifteen States, and favored the large States at the expense of the small.

The question was on the first amendment reported by the Judiciary Committee, providing that the House shall consist of the present number, 243, instead of 283, as proposed in the House bill.

Mr. MORRILL (Vermont) moved to amend so as to make the number 292. Lost—yeas 17, nays 31.

Mr. EDMUNDS again argued that the House bill would violate the constitutional requirements, that there shall be equality in representation, and expressed the opinion that exact justice would be nearest approximated by reverting to the rule which was followed up to 1841, of disregarding fractions altogether.

Other amendments reported by the committee were rejected, except the last, which was adopted—yeas 27, nays 25. The section provides that should any State, after the passage of the act, deny or abridge the right of any of its male residents to vote at any election named in the fourteenth amendment, except for participation in rebellion or other crime, the number of representatives shall be proportionately reduced.

Mr. POMEROY moved to strike out the fifth section, which prohibits the admission of any new State until it has sufficient population to entitle it to one representative. Lost—24 to 32.

Mr. PATTERSON moved to amend so as to give Vermont and New Hampshire three members each. Lost—48 to 9.

Other amendments were offered and rejected.

The bill, having been considered in committee, was reported to the Senate, and the amendment made concurred in—34 to 19. The bill was passed, all the Senators voting aye, except Messrs. Edmunds, Hamilton (Maryland), Morrill (Vermont), Norwood, Patterson, Saulsbury and Vickers.

Adjourned.

HOUSE.

BILLS INTRODUCED.

In the House bills were introduced admitting pine timber and lumber free for building ten sloops of war; repealing the stamp tax on syrup and preserved vegetables.

By Mr. BUTLER, granting woman suffrage.

By Mr. HOLDMAN, for public buildings at Harrisburg, Pa.

By Mr. SLOSS, for a land grant for a railroad from Delaten, Ala., to Macon, Ga.

By Mr. HARRIS, of Mississippi, for a renewal of the land grant for the Gulf Ship Island Railroad Company.

By Mr. SHELDON, for arming the whole militia force of the United States.

By Mr. STEVENSON, for refunding to distillers the sums paid for still meters; also, to utilize the burned timber of the public lands of Michigan, Wisconsin.

Mr. PARKER offered a bill to allow women to vote and hold office in the Territories.

Mr. CONGER, to complete the survey of the port of Gratiot, the military reservation at Port Huron, Michigan.

Mr. SUTHERLAND, for the sale of an island in the Saginaw river.

Mr. ORR, to grant the right of way to the Dakotah and Southern Railroad Company.

Mr. COGHLAN, for the improvement of San Francisco Harbor.

Mr. HOOPER, of Utah, to grant the righ of way to the Southern Utah Railroad Company.

By Mr. BECK, to allow one-half the custom duty to be paid in legal tenders.

By Mr. VOORHEES, placing printing type and material on the free list.

By Mr. ARMSTRONG, of Dakota, for the organization of a new territory out of the Northern portion of Dakota.

INDEPENDENCE HALL.

Mr. HIBBERD asked leave to offer a resolution instructing the Committee on Public Buildings and Grounds to inquire into the propriety and feasibility of procuring for the United States the title to Independence Hall and square in Philadelphia. The resolution was adopted.

SPANISH-CUBAN WAR.

A bill for the recognition of a state of war between Spain and the Republic of Cuba, declaring both parties entitled to belligerent rights, including the right of each to carry their respective flags in the waters of the United States, was introduced by Mr. VOORHEES, who moved a suspension of the rules for the passage of the bill. After debate, the bill was referred to the Foreign Committee.

DIPLOMATIC APPROPRIATION.

The Diplomatic Appropriation bill was reported and was specially ordered for Thursday.

RESOLUTIONS.

Mr. GETZ asked leave to offer a resolution for an investigation into the authority by which Seneca sandstone had been used in the foundation of the new State Department building, contrary to the order of the Joint Committee on Public Buildings and Grounds.

Mr. NEGLEY objected.

Mr. BURDETT offered a resolution instructing the Committee on Manufactures to inquire whether materials for steamship building can be supplied by the United States, and the difference in price between domestic and foreign materials. Adopted.

FINAL ADJOURNMENT.

Mr. DAWES called up the Senate concurrent resolution for final adjournment on the 29th of May. He wanted an expression of the will of the House on the subject, so that it should be understood in good time.

Mr. FARNSWORTH wished the resolution to be referred to one of the leading committees, and let that committee be responsible for its report. It appeared to him as plain as day that the adoption of the resolution meant no revision of the tariff this session—no revision of taxation. It meant that the House should do the bidding of certain gentlemen, and pass some appropriation bills, so that they might run their department and let the members go home with their fingers in their mouths, and their mouths in the dust.

Mr. GARFIELD, said he was not ready to see the limit of the session fixed for the 29th of May. He favored a reference of the resolution either to the Committee on Ways and Means, or the Committee on Appropriations.

Mr. BROOKS (N. Y.) reminded the Chairman of the Committee on Ways and Means (Davis) that the committee would not be prepared to report a bill for the revision of the tariff and internal revenue before next April. He thought, therefore, that the adoption of the resolution at this time was equivalent to saying that the Government would continue to collect from the people a hundred millions a year beyond its necessities. Other important subjects which Congress should pass upon before adjournment were resumption of specie payment and the relations of the United States with Spain and England.

Mr. DAWES did not admit that the Committee on Ways and Means would not be ready to report a bill to reduce taxation before April next. He thought it might be done much sooner.

Mr. BUTLER (Mass.) favored the adoption of the resolution, believing that a short session would be beneficial to the commercial interests of the country.

Mr. HOLMAN argued against the adoption of the resolution, and suggested a substitute for it, declaring it to be the sense of the House that Congress should not adjourn until after a revision of the tariff, a reduction of internal revenue and reform of the civil service abuse.

Mr. BUTLER (Mass.) asked Mr. Holman to include also the establishment of civil rights to all men.

Mr. HOLMAN said he had no objection to that, although the gentleman from Massachusetts had had four years, with all the power of Congress in his hands, to secure those rights; and if he had not done so, it was his own fault. He favored a reference to a responsible committee.

Mr. COX said that this was a party movement, and they all knew it. It was to carry the Presidential election.

Mr. BUTLER—Then it is very clear that we ought to pass it. [Laughter.]

Mr. COX thought he would smoke the gentleman (Butler) out. He did not think that members of Congress should imitate other officials of the Government, and go philandering all over the country, instead of staying at Washington and attending to their business.

Mr. BINGHAM, chairman of the Judiciary Committee, argued in support of the resolution, taking the ground that the legislation of the country had been confided to a Republican majority, and that *that* party would take the responsibility of adjournment.

Mr. MAYNARD supported the resolution and showed that several Democrats had already voted for an earlier adjournment.

After further discussion the resolution was, on motion of Mr. FARNSWORTH, referred to the Committee on Ways and Means—yeas 129, nays 77. The Democrats all voted for a reference of the resolution.

USING SAND STONE.

Mr. GETZ offered his resolution of inquiry as to the use of Seneca sand stone in the new building for the State Department, and it was agreed to, there being only five negative votes.

EDUCATIONAL.

On motion of Mr. PRICE, the Educational bill was made the special order for next Friday, and the following Tuesday the vote is to be taken.

PENSIONS.

Mr. GARFIELD offered a resolution requesting the Senate to return to the House a bill passed last week making pensions commence from the date of the discharge or death of a soldier. In connection with it, he sent to the Clerk's desk and had read a communication from the Commissioner of Pensions, stating that the bill would involve an expenditure of $30,500,000, and he said that at least one-fourth of that sum would find its way into the pockets of thieves, sharks, and vagabonds, in the shape of claim agents.

After opposition by Mr. MOORE, of Illinois, and after considerable discussion, the House refused to suspend the rules and adopt the resolution.

The House adjourned.

I shall never forsake the monarchial principles which I have preserved intact for forty years, and which is the last hope of France's greatness and liberties. Cæsarism and anarchy threaten France because her salvation is sought in personal questions, and not in principles. I shall ever uphold the flag of France, and aid in restoring the ancient prestige of her armies. Time presses, and alliances and reorganization are urgent. The happiness of France is my only ambition, and I will never consent to become a revolutionist where I am legitimate King."

THE DUTY ON LEATHER.

Destroyed Tobacco Stamps.

WASHINGTON, January 29, 1872.

VANCE-ABBOTT CONTEST.

The Vance-Abbott contest will be again taken up on Wednesday.

APPOINTMENTS.

The following have been appointed storekeepers: S. F. Burney, Wisconsin; J. R. McCullough, C. C. Bell and S. V. Parent, Kentucky.

NOMINATIONS.

The President sent the following nominations to the Senate to-day: Postmasters—H. L. Tillotson, Nevada, Mo., and Sylvanus Milner, Mount Vernon, Ind.

DESTROYED TOBACCO STAMPS.

A number of tobacco manufacturers in Chicago having petitioned the Commissioner of Internal Revenue to refund the value of stamps on tobacco packages destroyed by the great fire, the Commissioner decides that he has no warrant of law to grant the relief asked. Congress only can give the relief asked.

LEATHER TANNERS.

The Ways and Means Committee heard the leather tanning men to-day. G. W. Alien, of Milwaukee, argued in favor of reduction of the duty on leather, and the removal on hides. Foreign raw hides are now taken to Canada, where, owing to cheaper labor and tanning material, they are tanned and exported to our own trade. At present the Canadians have an advantage of eleven per cent. over the United States.

John B. Alley was opposed to a reduction of the duty on leather, and presented a protest of three leather dealers in Boston, who believed they expressed the sentiments of the leather tanning trade generally.

COURT DECISIONS.

The Supreme Court to-day delivered an opinion against what is known as the "Drake amendment," which in effect prohibits the reception by the Court of Claims of evidence of amnesty and pardon on the part of suitors, but allows the opposite party to refer to such pardon as evidence of disloyalty, unless at the time of receiving pardon and amnesty the recipient protested against the implication of previous disloyalty contained in the official document. The Court adverted to the proclamation of Lincoln of 1863, which granted amnesty and pardon on condition of taking the oath, &c., with restoration of property, excepting in slaves. The court asserts the full power of the President as to the granting of pardon and amnesty, the acceptance of which can not, it says, be rendered of no effect by the legislation of Congress. In this case the Court of Claims rendered judgment for the claimant, and an appeal is taken to this court, and it is directed to dismiss the appeal if it be found that judgment must be affirmed because of the pardon granted to intestate claimants. This can not be done without allowing that the legislature may prescribe rules of decision to the judicial department of the Government in cases pending before it. It is said that Congress has inadvertently passed the limit which separates legislative from judicial power, and it is of vital importance that these powers be kept separate. Congress has already provided that the Supreme Courts shall have jurisdiction of judgment of the Court of Claims on appeal, and it can not prescribe a rule in conformity with which the court must deny to itself the jurisdiction thus conferred, because its decision, in accordance with a settled law, must be adverse to the Government and favorable to the suitor. The motion to dismiss is denied, and the judgment of the Court of Claims is affirmed.

The Chief Justice delivered the opinion. Justices Miller and Bradley dissent on the ground that there was no interest in the former owner of the property under the captured and abandoned property act when the property had been sold and the proceeds paid into the treasury under it. They concur as to the constitutional question involved and raised by the amendment in question.

Kentucky vs. the Secretary of the Treasury. This is an application for a mandamus made by the Commonwealth of Kentucky to compel the Secretary of the Treasury to pay the war claims of the State. A rule to the Secretary to show cause why the writ should not issue was now ordered.

In a case of appeal from the Circuit Court of Alabama, the question arose when the war began and when it terminated. The court, for the purposes of this case, assumes that the proclamation of blockade is the commencement of the war, and takes the proclamation of the President of April 3d, 1866, declaring the war terminated in certain States, including Alabama, as the termination of the war as to that State.

In the Court of Claims to-day Judge Knott delivered the opinion of the court, denying the motion of the United States for a new trial in the case of John Silvery, involving about twenty-seven thousand dollars' worth of cotton seized at Atlanta, Ga. The motion was made under the statute enacted a year ago, authorizing the Government, within two years after the decision of the case, to move for a new trial upon the discovery of fraud, wrong or injustice to the United States, and this decision is important, as giving the construction of the court to the statute in regard to the diligence required on the part of the Government and kindred questions. Chief Justice Drake and Judge Loring dissented.

OUR WASHINGTON LETTER.

WASHINGTON, January 27, 1872.

POLITICS IN OFFICE.

The clamor against politics in office has at last been met in Congress by earnest argument and successful opposition. Both in the Senate and House this fallacy has been exploded, and it is required once more to refer to the subject in order to connect and complete the thread of argument which has been run through many of these letters.

That there are some evils connected with this system in both elective and appointive offices is admitted. Unworthy and pretentious men often secure places and privileges on account of assumed political influence, while others who are really political thinkers and writers, but more unassuming are remanded to back seats. But in official appointments, the remedy is now with the Heads of the Departments, or other appointing officers. To distinguish the true from the false, the genuine from the counterfeit, is precisely what they are paid for. This is the essence of their duties, and in proportion as they they make proper selections is official success secured.

In case the President, Head of Department or other officers in whom the power of nomination or appointment is vested are either unable or unwilling to discriminate between these two classes of men, an examination by a Board and a subsequent re-election from the names submitted will only aggravate the evil. It is much better that the sole responsibility should be vested in any one man, than that he be permitted to shield himself behind an irresponsible Board.

All civil officers from the President down to the Messenger are simple agents for that impalpable but gigantic corporation—the United States. To induce these agents to perform their duties conscientiously stimulus beyond the meagre salary is necessary.

It is a solemn duty of which no voter can rid himself without manifest danger to the State, to think upon political questions and to give to the benefit of the State his counsel and his vote.

The men who would administer an opiate to our political system, and institute any system of civil service that would induce our chief officers, or the people at large to grow indifferent to political questions, would build up precisely that system of colossal fraud which ruled in New York City for many years. There it was fashionable for the kid-gloved gentry and mushroom aristocracy to despise politics and politicians and the result necessarily was that the politicians not only despised them, but plucked them of the last feather.

Our experience has been that the most successful officers like Chase, Fessenden, Boutwell, Spinner, Delano and others, have taken the greatest interest in politics, and those like McCulloch, Pleasanton, J. D. Cox and others, who did not pretend to be politicians, did not give satisfaction to anybody, because a clear comprehension of the principles upon which the Government is conducted is essential to a successful administration.

It is dangerous to the very life of the republic to teach the people either in or out of office, to grow indifferent to political questions.

RAILROAD ENTERPRISE CRIPPLED.

It is reported that there was a gathering of railroad magnates at Memphis, Tenn., a couple of days ago, which looks to the acquisition of the Memphis & Little Rock Railroad in connection with the lease of the Memphis & Charleston Railroad by the Pensylvania Central Railroad Company.

It appears that in 1863 this road, the Memphis and Little Rock was taken possession of by the Government under an agreement to pay rent and cost of property used and taken away, and was held entirely under the control of the military department, until Nov. 1865 when it was turned over to the company, but they have not received from the Government the amount due for rents, nor for the new iron and rolling stock worn out or taken away to be used on other roads; $527,826 is claimed to be due, and has been so long delayed that the company has been forced into a receivers hands, and now it appears that as a further result of want of the money due from the Government, it is about to be gobbled up the Penn. Central. I am one among many who believe that the Government cannot afford to do wrong to its citizens, even though they be sufficently enterprizing to push forward the greatest of civilizers a line of railroad. The claim is now before Congress and in excellent hands, Messrs. Drew, Bliss and Holmes, solicitors for the road, and Caleb Cushing, Edward Peirrepont and J. F. Drew of Counsel, have printed a brief of their case, which we hope will be promptly investigated by the proper committee, and that Congress will render unto Caesar that which Caesar's.

THE EDUCATIONAL BUREAU.

The report of General Eaton, the Commissioner of Education, has just been printed. It is a work of great value, not only for the vast amount of accurate statistical information it contains, but for its many valuable suggestions for the improvement of our educational system. The Commissioner is not only a persevering thinker and worker in the educational field, but he has sought to obtain the suggestions of the ablest educators both at home and abroad. One contribution upon the progress of educational ideas in Germany, from the pen of J. Fred. Meyers, Esq., who visited that country as Immigration Commissioner for the United States, is deserving of attention, because it contains a summary of the latest phases of the discussion of educational principles in the country where public schools were first established.

COMPROMISE REFUSED.

Twenty thousand dollars have been offered to compromise a case of alleged fraud in the internal revenue; pending in the United States Circuit Court, in which certain revenue officers are implicated, and has on that account been refused. The case is now on trial in Baltimore.

AMNESTY AND CIVIL RIGHTS.

The vote yesterday on Sumner's civil rights amendment to the Amnesty bill shows that I have not failed to reflect the Republican sentiment on this question. The amendment was rejected by a vote of yeas 4, nays 41. All the amendments were successively rejected, after which the Amnesty bill was adopted—yeas 36, nays 12. So ends a contest in which Mr. Sumner tried hard, but in vain, to compel Senators to vote for his bill, in order to secure Amnesty. The civil rights bill will now be amended and no doubt passed in a perfected form.

GIVING UP CONTROL.

Mr. Trumbull, is showing his hand again by pressing before the Senate, an amendment to the House appropriation bill, in which his committee propose to drop 22 Republican members of Congress, and to lose 22 Republican electoral votes at the Presidential election. If Mr. Trumbull believes in the principles of the Republican party, and desires them to be practically applied, it is difficult to see why he is so anxious to reduce its representation in the House and electoral college. Principles are only practical when they are represented by a majority in our representative government. Hence, to secure this majority beyond all peradventure, should be the duty of every consistent Republican.

MISCELLANEOUS.

The Indian appropriation bill was reported to the House to day. It appropriates five thousand dollars.

General Emery telegraphs from New Orleans that all is quiet as usual there, and that the Legislature is in session, attending to business.

The Indian contest case of Gooding vs. Wilson was up yesterday, and is to be argued before the Committe on Elections next week. AGATE.

THE WEATHER.

WASHINGTON, January 29.—*Probabilities*—The barometer will probably continue to rise on Tuesday from New England to Florida, with cold northwest winds, diminishing in force; a rising barometer with clearing weather and north west winds prevail on the lakes; northerly winds veer to the east, with increasing cloudy weather on the Gulf coast; brisk northwest winds prevail on the middle and west Atlantic coast. Dangerous winds are not anticipated to-night on the south Atlantic or Gulf coast.

ST. LOUIS, January 29—The ice still runs past the city, but it is expected it will gorge below here, unless the weather turns mild again, and speedily. The harbor is so full of heavy ice that but one ferry could run to day, and it is feared that it will be obliged to stop to-morrow. The weather was somewhat milder to-day, but still is very cold. The wind is now veering around to the South.

OMAHA, NEB., January 29.—The train from the west that left Laramie station on Friday last arrived at Cheyenne to day. The road is reported again blocked between Cheyenne and Laramie, as well as west of Laramie. A train from the west passed Rawlins at three P. M. to-day. There is a high wind and the snow is drifting to-night at Rawlins. There are 200 cars of through freight here for the west.

LITTLE ROCK, Ark., January 29.—This was the coldest day of the season. The thermometer was down to 9. Ice was running heavily all day in the river.

MEMPHIS, January 29.—This was the coldest day of the season.

CINCINNATI.

Revenue Decision.

CINCINNATI, January 29.—In the United States Circuit Court, in the case of the United States vs Daniel G. Dusien and others, for an alleged conspiracy to defraud the United States of taxes upon certain distilled spirits, manufactured in the Sixth Ohio District, in which a demurrer had been filed on the ground that the prosecution was barred by the two years' statute of limitations, Judge Emmons on Saturday rendered a decision that the thirteenth section of the act of Congress of March, 1867, punishing conspiracies was a revenue law, and the period of limitation for offenses against said section was five years instead of two.

A PROTEST.

The Board of Trade Directors to-day adopted resolutions declaring against the bill before Congress for the admission, free of duty, of articles entering into building in Chicago, and earnestly urging the Senators and Representatives from Ohio to oppose the bill as being impolitic, unjust and dangerous to the prosperty and industries of the country.

THE tolls on the river Scheldt, of which Antwerp is the principal port, it is reported, will soon be abolished, as the final conventions with all the maritime countries interested have at last been signed, and the payments to Belgium have been either made or are fixed by instalments. The first treaty on the subject was made between Belgium and Denmark on March 14th, 1857, and the last separate convention was signed by Ecuador on June 14th, 1870. The navigation to Antwerp will soon be free from this inconvenient tax.

NEW YORK.

Arraignment of Stokes.

INTERNATIONALISM SPREADING.

Market Savings Bank.

NEW YORK, January 29, 1872.

STOKES ARRAIGNED.

Stokes, the murderer of James Fisk, Jr., was arraigned to plead in the Court of Oyer and Terminer this morning. His lawyer, John Graham, said that he intended to move to quash the indictment, on the ground that the Grand Jury had been given the case before the coroner's jury had given their verdict; that the coroner kept back the facts as to whether the deceased was armed, and otherwise exceeded their authority contrary to the statute; that in their anxiety to obtain a murderous verdict, the papers were clandestinely transferred by the Grand Jury; and that the coroner, too, in violation of his previous premise, placed upon the jury a lawyer named Maundsell B. Field, whose motives were prejudiced.

Mr. Graham alluded to the part taken by ex-Judge Fullerton in obtaining an indictment against Stokes, saying that Fullerton became acquainted with all of Stokes' private affairs as his counsel; then Stokes, having refused to pay him an enormous fee—five thousand dollars—sued him, subsequently using his knowledge as former counsel to secure an indictment against Stokes.

The foregoing were put before the court by Graham in the shape of affidavits. District Attorney Garvin stated that he did not propose to put in contradictory affidavits. Mr. Graham then asked to quash the indictment on the ground of the sitting of two grand juries, which is unconstitutional, and that the presentment should be sent before another grand jury after the 1st of February.

The District Attorney replied to Mr. Graham. He argued that nothing had been illegally done to warrant the quashing of the indictment. He referred to the savage assault of Graham upon ex-Judge Fullerton as unwarrantable and exceptional. He gave in detail the circumstances of the shooting of Fisk, and referred to the case of Fisk against Mansfield and Stokes in the Yorkville Police Court.

Graham again retorted savagely on Garvin and Fullerton, and stated that he came to knowledge that the medical treatment which Fisk underwent accelerated, if it did not entirely cause, his death; as there is a man now living in this city who was once wounded the same as Fisk.

McKeon, one of Stokes' counsel, followed, saying Fisk was the centre of a band of assassins, which he (McKeon) feared as he never feared before in his official career.

The Court took the papers and adjourned to Thursday.

MARKET SAVINGS BANK.

The new receiver of the Market Savings Bank was at work to-day, and expresses the belief that all stories as to its unsoundness are substantially true. Conkling has thus far eluded the detectives, who have no clue to his whereabouts; but the arrest and punishment of the parties to the conspiracy for the robbery of the bank are expected in due time, as well as the recovery of some stolen bonds. A meeting of the depositors of the bank was held this afternoon, to hear the report of the committee who conferred with the officers. The total liabilities of the bank are stated to be $400,000, after deducting all available assets. If Heiser's claim is paid, the poor sufferers will probably get more than sixty cents on the dollar. Every effort is being made to ascertain the whereabouts of Conkling.

ASSAULTS.

Another citizen of Brooklyn, Walter T. Hoyt, was shot last night in Henry street by a desperado. The wound is in the arm, but is not dangerous. Wm. Raynor was arrested and partially identified by Hoyt.

The Treasurer of the Holland Society, Mr. Vanden Houton, was assaulted with a slung-shot in Prospect street, Brooklyn. He is probably maimed for life. The approach of footsteps saved the injured man from robbery, and perhaps death.

CHURCH TROUBLES.

On Monday next, the Presbytery of Brooklyn will meet in called session in the First Presbyterian church. The called session is to take action upon the report that the pastor of the Lafayette Avenue Presbyterian church, Rev. Theodore L. Cuyler, D.D., has recently invited and permitted a lady preacher, Miss Smiley, an Orthordox Quaker minister, to occupy and preach in his pulpit.

RUSSO-ENGLISH DIFFICULTIES.

An alleged cable report was circulated on Wall street to-day, speaking of trouble between England and Russia, arising from the reported determination of the former to oppose the Russian advance in Asia. The story is undoubtedly false.

WHAT THERE IS IN A NAME.

It has been determined to drop the name Tammany from the title of the society names of general and ward committees, and from the building so well known as Tammany Hall. The name to be substituted is "Columbian."

THE EMMA MINE.

Schenck, in his resignation of the directorship of the Emma Mine, published in English papers, says his directorship was not incompatible with his official duty, but preferred to remove a pretext for an attack on him.

INTERNATIONALS.

At a meeting of the Internationals, yesterday, reports were read showing that the organization is spreading throughout the country. Twenty-seven new Unions have been formed during the month.

DEPARTMENT OF BUILDINGS.

The Builder's Association present in their report evidence of great frauds in the Department of Buildings. A committee is to be sent to Albany to secure legislative action.

TWEED.

It is very probable that Tweed will go to Albany to day or to-morrow. He is now said to have secured a sufficient number of Senators to enable him to take and keep his seat.

ACCIDENT.

A passenger named Bullis was blown by a gale from a car on the Flushing Railroad, and severely injured. He was passing from one car to another at the time.

RELIGIOUS.

The *World* says that another distinguished clergyman will soon abandon Unitarianism and unite with the Episcopalians.

NEW ORLEANS.

Congressional Investigation.

NEW ORLEANS, January 29.—The Congressional Committee commenced the investigation this morning in the United States Court room in the Custom House building. Governor Warmoth, having previously been consulted, stated that he had no objection to the committee using the court room. If the Governor had objected, the committee would have met elsewhere. Only one witness was examined, J. Henrie Burch, a colored Carterite. His statement took a wide range. The object of the committee seems to be to hear a general statement from one member of each faction, in order to arrive at the points that require their attention.

The statement telegraphed hence on the 11th inst., to show how the Legislature is made, citing the Wheyland case, covers Burch's statement to-day regarding some half dozen members. Burch will be recalled to-morrow.

LEGISLATURES.

Ohio.

COLUMBUS, January 29.—In the House this morning bills were introduced to conserve the property of habitual drunkards, and to provide for the maintenance of separate schools for colored children.

In the Senate to-day bills were introduced to allow such corporations as wish to, to pay taxes on bonds issued by them; also to pay clerks of elections four dollars for their services at all elections.

A resolution was presented requesting the Joint Commission on redistricting the State to present such a bill as will be fair and just in its operation, which as nearly as possible will give to each political party a proportionate representation in the Lower House of the Congress of the United States, to which its population vote entitles it. The resolution was ordered printed.

CHICAGO.

To Mechanics and Laborers.

CHICAGO, January 29.—The mechanics and laborers in various parts of the country are making a great mistake in coming to this city in search of work. The supply of labor of all sorts is far in excess of the demand, and will be for two months to come. What building is going on is done slowly, and depends on the weather, which is too severe for outdoor work, while the real activity in rebuilding will be delayed until spring. Workingmen, not understanding this, are pouring in from all quarters, spending their last dollar to get here, and appealing to the Relief Committee for aid when they find no work to be had. Those journals which are urging these people to come here at this season of the year are unintentionally doing wrong, adding to a city already overburdened with the destitute. Signed, N. J. Fairbank, Chairman of Employment Committee and Relief Society.

TRIAL OF ALDERMEN.

Alderman M. C. Bailey, charged with offering to receive money from Wm. Goggin for his influence in securing a purchase by the city of a school lot, was today tried and acquitted by the Criminal Court. The case of Alderman Montgomery was postponed to to-morrow morning.

THE FIRE LIMITS.

Mayor Medill has vetoed the resolution by the Council to permit the completion of half-finished frame buildings within the fire limits.

RAILROADS.

IMPORTANT RAILROAD COMBINATION.

We are informed by high authority that a railroad combination was effected on the 14th, at Summerville, near Rome, in which Columbus is deeply interested. We refer to the meeting of the corporators of three companies, known as the Chattooga Coal and Iron Company, the Trion Rail road Company and the Lookout Mountain Railroad Company, and the organization under the latter charter. This charter provides for the construction of a road from Rome to Chattanooga. It commences with $100,000 from Chattanooga, $50,000 from Walker and $40,000 from Chattanooga counties. Its charter provides $15,000 state aid per mile, and allows a consolidation with the North and South Railroad. The company is working at present under an executive committee, of which Mr. A. P. Allgood, of Trion Factory, is chairman. The old Trion Railroad Company graded some fifteen miles before the war, seven miles of which can be utilized. Our informant says it would astonish our people, accustomed as they may be to the unusual progress at our end of the road, to view the long and handsome stretch of work on the North and South Railroad which has been accomplished at Rome. Rome boasts of her iron interest, her water works and her enterprise generally; but when she secures the Lookout Mountain Road to the northward, the North and South to the southward, and the Memphis Branch to the northwest, she, as well as Columbus, will have a commercial importance her most sanguine citizens do not dream of.—Columbus (Ga.) *Sun.*

ST. LOUIS.

Territorial Question.

ST. LOUIS, January 29.—Mr. Thomas Lemoine, of this city, who has spent several weeks in the Indian Territory, has just returned, and reports that the feeling in regard to the adoption of the Territorial policy is gaining ground; but there is still an intense hostility to it, and considerable interest is manifested as to Congressional results on the subject. In the Creek nation, the advocacy of such a measure would be dangerous to the life of the advocate. Among the Choctaws the policy is gradually growing, and among the Cherokees it is still more favorable. He says it is simply a question of time with all the tribes as to its ultimate success. But little else is talked of there now, and the sending of rival delegates to Congress is a source of much comment, and occasions at times local troubles.

THE Providence *Journal* says: Congress is asked to give the city of Chicago an indefinite sum of money in the way of release of duties and taxation. It may at first blink seem uncharitable to call attention to the utter indefensibleness of this, upon constitutional grounds, but the drift of theory and example is setting so strongly, and apparently so insidiously in the direction of a paternal government, that it cannot be idle to call attention occasionally to the ancient land-marks. When General Grant ordered the army officers to send food and clothing to Chicago, everybody said: well done. It is without authority of law, but the common humanity of the nation will ratify the deed. Then came the contributions from this and other countries at such rate, and in such amount, that before the ruins had done smoking the inhabitants of Chicago were boasting that in three or at most in five years the city would be more busy and better built than before. The loss was immense, but it was not by any means wholly the loss of Chicago. At first no questions were asked; the sentiment of pity found expression in telegrams to check for money, and this to such an extent that instead of being either obliged or willing to sell land at less prices than before the fire, in some sections of the burnt district the price was considerably enhanced. When Congress was ready, to vote the commencement of an expenditure for public buildings which would eventually amount to at least five millions of dollars, the appropriation was delayed because no proper site could be obtained except at an exorbitant price. In point of principle, Congress has no right to give, by a remission of taxes, Chicago a hundred thousand or so of dollars than it has to select any unfortunate and respectable man in Rhode Island and build him a house and endow him with a life income, at the expense of the people.

ON the 19th day of January Savannah celebrated the memory of General Robert E. Lee. The celebration was noteworthy in this: that the speeches of the day, delivered by ex-Confederates, while indulging, of course, in rather extravagant laudations of the dead soldier, contained nothing which would be apt to tear open the imperfectly-healed wounds of the war. No orator sought to make General Lee's military fame brighter by darkening the deeds of his antagonists; there were no appeals, like those of last year, to "revenge sooner or later the heroic dead," and the Lost Cause was suffered to lie in its oblivion. It is a good sign for the future when an anniversary like this can be observed in such a way.

$400,000
Burlington, Cedar Rapids and Minnesota R. R.
FIRST MORTGAGE BONDS
To 92½ and Interest.

The amount above named is all that remains of an issue of $5,400,000 Bonds; and in view of the small amount unsold the Company has raised the price from 90 to 92½ and interest, henceforth.

The mortgage deed authorizes the issue of $6,600,000 Bonds; a modification of the plan of construction will confine the issue however to $20,000 per mile, making the total as above stated. The remainder of the Bonds will be cancelled by the Trustees.

Construction is now stopped on the road. The entire equipment will be hereafter devoted to increasing the earnings.

The receipts for the last five months from local traffic, over a portion only of the line, and while much of the equipment was in use for construction purposes, were as follows:

August receipts	$67,244.82
September "	95,623.33
October "	73,602.38
November "	69,393.69
December "	62,650.97

The net earnings out of this amount were more than 10 per cent. on the amount of the mortgage indebtedness of the road applying against the portion in operation. The figures above given represent actual cash receipts, no charges being made for construction account.

As soon as the $400,000 Bonds remaining on hand shall be disposed of, the security will be placed upon the New York Stock Exchange, and the merits of the Bonds will entitle them to take rank with any Railway Mortgage upon the Exchange List, none of which sell below par.

Detailed Report will be furnished on application.

THE election takes place to-day in the fourth Senatorial district (Philadelphia) to fill the vacancy caused by the death of George Connell.

WE DIRECT particular attention to the elaborate and carefully prepared letter of the Hon. D. N. White, on the fee bill question, which appears in another column.

THE first news of the so-called Liberal Republican movement at Jefferson City, which was hearlded by the Associated Press with a grand flourish of trumpets, is supplemented by the true account of the meeting. Instead of a "grand convention of delegates" there was no convention at all, for the reason that there were no persons sent as delegates. True there was a meeting of dissatisfied and disappointed office-seekers, who, like the three Tooley street tailors, met and resolved "in the name of the people," to hold a mass convention at Cincinnati on the 6th of May. This is the only result of the sittings of the few Missouri "sore-heads."

"THE TIME has come for barricades," was loudly proclaimed in the Spanish Cortes a day or two ago, upon the dissolution of the last Cabinet. After vainly attempting through six different ministries to conduct the Government successfully, the young King was again obliged to throw himself upon the moderation of the people, and accept the portfolios of his cabinet officers. This turbulent people have been supposed to harbor feelings of jealousy, if not of revenge against our free and strong Government; but such exhibitions of flippant childishness, or downright intrigue can only claim our supreme contempt, and not excite any fear. Spain must learn to govern herself, and learn that something more than shams and tinsels is needed before she can hope to be even respected as a power. If she would hang about seven-eighths of her would-be statesmen, and trust her future to the guidance of such proved patriots as Castellar, then indeed might the dawn of her returning greatness be looked for.

THE PHILADELPHIA *Press* has been a very uncertain paper of late, and its friends marvel at its rich and frequent displays of glaring inconsistency. Does its accomplished editor imagine that he still runs "two papers both daily" in conducting the political course of his journal, since he changes views as regularly as the earth goes around the sun, making the *Press* of to-day contradict the *Press* of yesterday, apparently following the old axiom that "turn about is fair play." The Philadelphia *Bulletin*, a journal that has been grumbling and growling about "reform" for a number of years, in its own spirit of inconsistency marvels at the prestidigitation of its neighbor, reviewing it in this style, saying:

"It is entertaining to observe the manner in which the *Press* "wobbles" in its discussions of the situation in the Fourth Senatorial District. Upon the day after Mr. Gray's nomination the *Press* gave to that candidate its unqualified commendation. A day or two later it said, "Col. McClure can be elected only by Democratic votes." On the 25th this remarkable journal said, "As Mr. McClure has always been a warm Republican, it is difficult to see why he should receive any Democratic votes at all. Col. McClure is a Grant man, and the natural results of his election will be the same as of the election of any other Republican." On the 26th the *Press* turned another somersault. It said "Mr. Gray is the representative of the only party in this country that has effected anything like complete reform. Col. McClure can be elected only by Democratic votes." This morning it turns back again, and says that as a large body of Republican voters are not satisfied with Gray, would it not be better to have from the Republican Executive Committee a decision in favor of either one or the other of the candidates, or an altogether new nomination? It will be exceeding difficult for the readers of the *Press* to discover precisely where it stands on this question; we venture, indeed, to doubt if the editor himself can tell."

THE Philadelphia *Press* seems to lose its courage in the eleventh hour, and cries out painfully for the withdrawal of one or both of the Senatorial candidates in the IVth District, and for the nomination of either, or of a new man, for the place on the simple platform of "Grant and Republicanism." We are at a loss to discover what circumstance has caused the *Press* to lose heart so suddenly and to veer about so swiftly in the presence of the enemy just on the eve of the contest. We have had the assurance from that same quarter that Mr. Gray is a true Republican, and, if it was well to nominate him at the outset, the party should either stand with him or fall with him in the fight. It would be establishing a very mischievous precedent to permit Colonel McClure, or any other recalcitrant bolter, to break down the honored usages of the party, and compel the withdrawal of any candidate distasteful to himself. We have confidence in the political integrity and fidelity of Mr. Gray, and hope the ill-timed and impolitic advice of the *Press* may not be heeded, but that the battle will be fought fairly and manfully, for the questions involved in the canvass may as well be met now as at any other time. The issue has been made between Col. McClure on the one hand, as a reformer of political abuses which he alleges to have existence in Philadelphia, and Mr. Gray, the regular nominee of the Republican organization, on the other, and let there be no hauling down colors until the people shall have spoken, and awarded the victory to one or another at the ballot box. When the "reformists" of this county set about to break up the Republican party, the lamented John Covode came on a pilgrimage all the way from Philadelphia to urge just such bad advice as that now given by Col. Forney, he thinking thus to preserve harmony in the ranks, but he was not listened to, as the party refused to admit what was a libel on its fair record, put forward by its enemies, and resolved to fight the fight out to the bitter end. What was the result? The party emerged from the contest in triumph, securing a re-endorsement of its honesty and fresh acknowledgment of its ability to correct abuses, from the people, and hypocritical "reformers" were left powerless to do more mischief. We think Philadelphia Republicans should not desert their nominee at this stage of the contest, but, on the contrary, should enter the canvass with a determination to refute the slanders heaped upon their political organization by the followers of Col. McClure, by securing the election of Mr. Gray to the Senate.

AMERICANS are called on to send aid to Persia, from whence come the most distressing accounts of suffering and woe. It is hardly too much to say that the present condition of affairs in the kingdom of the Schah is more utterly wretched and pitiable than anything which the people of this century have seen before. Men and women are dying by hundreds, in the streets and by the waysides, of starvation and cholera and small-pox, while those who live envy those who die, because there is no hope left among them. There is nothing to eat, nor is there any prospect of there being anything to eat; mothers murder their children because of their strong, untutored, maternal love, which would shield the little ones from the terrible torture of starvation. The streets are lined with crouching, gaunt, hollow-eyed spectres, sallow skeletons in which the light of life still flickers, which gaze upon the passer-by until the gaze eats its way into his brain and leaves a picture on his memory which can never be effaced. There are some among us here, most probably, who have personal reminiscences of some of the horrors of the Irish famine some years ago, and we have listened to dreadful tales of the sufferings and privations which were then endured, yet it is said that the situation in Persia is so much worse than that was, that the actual experience of those days would not suffice to stimulate the human imagination to a point whence it could grasp this present horror. It is hard to understand that amid all this riot of famine and pestilence there is really no hope. There is nothing to look forward to but an increase of suffering. The government is powerless, the resources of the kingdom are exhausted, there are no crops forthcoming and the Mussulmen and heathen people of the neighboring countries dread the pestilence too much to venture to carry their wares into the land. The only balm for this suffering country must come from across the seas and mountains; Europe and America, if they loaded their navies with food and relief and sent them on this mission of peace could scarcely more than slightly mitigate the terrible sufferings of this oriental people, but, even a drop of cool water on a parching tongue is something.

Persia is a country of about four hundred and fifty thousand square miles of, mostly, mountains and deserts, with no roads or other means of transit, save such tracks as the caravans leave behind them, so that, should Russia pour bread stuffs down upon the Caspian borders of the afflicted land, the bounty would with difficulty find its way to the centre of the misery; and, besides, there are nearly *twelve millions* of people in the land, the majority of whom are actually suffering already. There is no time to wait, or argue, or reflect, there is only time to send whatever relief may be thought best, and that as speedily as possible.

LIBEL LAW.

If it had not been for the wholesome and just provisions of the New York libel law, the *Times* would not have dared attempt to expose the wholesale frauds of the Tammany Ring. In addition to the purchase of a portion, if not all of the judiciary of that city, under such a law as the one which insults justice, and aids the villain and the accomplished cheat in our State, under the name of the law of libel, the press would have been effectually muzzled. As it was, the *Times* exposed the robbers of the city treasury, and dared them to sue for libel. The proof of the charges made would, under their law, have been admitted in evidence, and this is what the villains feared, while the *Times* courted it. In this State, at present, the journals dare not expose similar villainy, if it were discovered to exist, as the law would send their owners to the State's Prison. Therefore is it a protection, a perfect shield to crime and criminals. Men wonder why the GAZETTE—representing the law-abiding and honest classes of society, does not expose this and that species of wrong and injustice, if not open rascality; but when informed that the law does not permit us to do so, under penalty of heavy fine and imprisonment, they shrug their shoulders, and forthwith forget the matter. If the people want a fair and just libel law, or any other law adopted by our Legislature, they should give some kind of expression to their wishes. It is not wise to remain quiet and idle, until other persons, after using their best judgment, have succeeded in making laws, and then complain about it. If the people are afraid of a *just* libel law, let us hear from them. We open our columns to any such, and if none apply we shall take it for granted that none exist. We again call upon our Legislature to remedy this grievous wrong, and blot out the remnant of tyranny from our statutes.

THE NEW FEE BILL.

Yesterday we published a petition signed by the members of the Pittsburgh bar almost unanimously, without party distinctions, asking the adoption by the Legislature of the fee bill recently forwarded to Harrisburg, after being subjected to revision by the members of the bar of our county. This bill is radically opposed to the principles of the present law, and we call attention to the fact. We have steadily and persistently favored the present fee bill, thinking it the best that could be framed; but advocated certain changes found to be necessary for the relief of the prothonotary. In doing this we had the approval of our County Controller, Henry Lambert Esq., who certifies in his annual report, that with a few alterations the bill can be made just and proper in every way. Now we are confronted with a formidable petition, asking for its virtual repeal. We do not wish to place our judgment against this expression of the bar, and shall withhold further comment on the matter, until the community at large has had an opportunity to investigate it, and take what action may be thought advisable. It is only a short time since the Republican party of our county, through its Executive Committee and its candidates for office at the time, pledged itself to thoroughly reform any abuses that were alleged to exist in or around the court house, and for the purpose of redeeming that pledge the fee bill, known as the White bill, was enacted by the Legislature, and has since had our unswerving support. Now, if *the people* wish that law repealed, or supplemented with another (which virtually repeals it) we shall submit, although with a protest, as we think such action unwise. It is our duty as impartial journalists to call attention to the matter, and thus endeavor to elicit an expression of opinion. If the people are satisfied to remain silent and permit the White bill to be repealed, we shall interpose no further opposition. We feel that we have done our whole duty, and it rests with the independent voters, whether *their* views shall be made known. Unless a counter-petition shall be presented to the Legislature the White bill will be repealed, and our members will be justified in so casting their votes, after the above expression of the members of the bar, and other supplemental petitions which we understand are being signed, shall have been presented to them.

Now is the time for the people to act, if it is their desire to continue the reforms recently inaugurated.

SPICY LETTER.

The subjoined manly letter has been addressed to Col. Alex. McClure, by his political rival for the Senatorship of the IVth District. Personalities in any political discussion should be avoided, but Col. McClure, having set the example, gets back a Roland for his Oliver. From the spirit pervading the letter, we feel safe in expressing the belief that the writer will not accept the advice of the *Press* to withdraw from the field, as he does not appear to evince much fear of the final result. Here is the letter:

PHILADELPHIA, January 26, 1872.
COLONEL A. K. MCCLURE.

Dear Sir: I duly received your note of the 19th inst., advising me that you had been requested to become a candidate for Senator by many Republicans of the Fourth district, who desire to effect a thorough reform in the management of the party in Philadelphia, and in municipal and State affairs generally, and that you have acceded to their request, and invited me to meet you in joint discussion on the issue of local reform, embracing local, political and municipal regeneration, so far as legislation can effect it. I did not reply to your letter, because my action, had I declined your invitation, might have been misconstrued, and to have accepted it would, according to the terms of your letter, have involved a public consideration of our respective qualifications to be the champion of political probity and reform, and my duty to myself and the great party I represent would have required a review of the past which it would be unpalatable for you to listen to and for me to utter.

I had hoped, therefore, that the campaign would have been conducted with a due regard for the courtesies and proprieties which should govern gentlemen aspiring to become members of the Senate of Pennsylvania. Since, however, you have realized the desperation of your position, and resorted as a forlorn hope to a villification of my personal and political character in my own Ward, and amongst my friends and neighbors, I feel that my delicacy for your feelings has been thrown away. In your published speech, a portion of which only was delivered at Germantown, last night, I an accused of harboring repeaters of political infidelity, and of being opposed to Hon. Wm. D. Kelley. You seem to be exceedingly familiar with the ways and doings of repeaters, and the process of manipulating elections; but I desire to assure you that until I saw your printed speech this morning I had not heard it even suggested that an unfair or fraudulent vote was needed to keep the Fourth District in the ranks of the Republican party. Nor did I believe, with my knowledge of your antecedents, that you would resort to extraneous help of this character; but your cry of "Stop Thief!" has put me upon my guard, and I am obliged, by your insinuations against my political infidelity, to reply.

Pardon me if I suggest that you are incompetent to try that question. I was among the first handful of Republicans in this State, and subscribed to Republican principles, and voted for the candidates before you found it profitable to join its successful army. During the recent campaign, involving not only the political complexion of the Legislature to which you now aspire, but the vindication of your personal and life-long friends, you never uttered a word of encouragement or wrote a line in their behalf. As to the charge that I sought a nomination against Judge Kelley, who was the regular nominee of my party, it is simply not true. I have always been his warm friend and supporter. How the suggestion, even if true, is an argument for your election, I am at a loss to see. The rules of the great party to which you profess to belong regulate the manner of presenting the nominees of the party. You were a candidate. Your views were eloquently set forth over your own signature and that document failed to procure you a solitary vote in the convention. Whether the fact that you were comparatively a stranger in the district, or on the other hand were too well known, was the cause of your defeat, I do not know. But I do know that you have since insisted upon being a candidate, even at the risk of disrupting the Republican organization. When consistent and devoted party leaders like my honored opponents, Christian Kneass, James N. Marks and Samuel A. Miller, yielded to the overwhelming demonstration which conferred the honors of the party upon me, how can you hope to filch from our organization a sufficient number of votes, which, added to those of the Democracy, of whom you are also to be the candidate, will elect you to the Senate?

You may be deluded by false hopes. I am not deterred by fear. My capital is your record.

Yours, Respectfully,
H. W. GRAY.

THE FEE BILL.

HOUSE OF REPRESENTATIVES, }
January 29, 1872. }

EDITORS OF THE GAZETTE—*Gentlemen*:—In your paper of to-day I find a petition signed by a large number of the members of the bar, requesting the Legislature to repeal the Act passed last session relating to fees and salaries in Allegheny county, popularly known as the "fee bill." The reasons given in this petition for this repeal are as follows:

First. That it is "impracticable and cumbrous in its operations and most unsatisfactory in its effects, and wrong in principle."

Second. That "it compels an unfortunate class to supply the county treasury out of their misfortune, when justice should be cheap and readily accessible."

These are formidable charges, and if true, the prayer of the petitioners should be granted. Let us examine them.

The first member of the first charge is, that the law is "impracticable and cumbrous." To this we reply, that we have the statement of the Controller of the county, to whom all the returns are made directly, to the reverse. He says, that with one exception, the law works well, and produces all the benefits expected from it. That exception is in regard to the State tax on salaries, which is intended to be corrected by a bill now before the Legislature. Even if it had been cumbrous, I do not see how it affected the lawyers as they had nothing to do with it more than to pay the fees when they became due. That it is not "impracticable" is clearly shown by facts, for it has gone into operation and there has been no friction, with the above mentioned exception, and it may be, such as may have arisen from the pertinacious opposition of interested office-holders to the bill.

The second member of the first charge is, that it is "unsatisfactory in its effects." What is meant by this I confess I do not know, and I question if the lawyers who signed the petition can tell themselves. Whenever they will condescend to point out these "unsatisfactory effects," I am ready to listen to them, but it seems to me neither manly nor just to attack a measure intended solely to work a reform in our county offices, by such vague and unproved charges.

The third member of the first charge is, that the fee bill they wish to repeal is "wrong in principle." Now what is the principle which underlies this fee bill—and the only principle? It is, that the officer shall receive from the emoluments of his office a fair salary for his services, and *nothing more*. All the machinery provided, has this sole end. Its incidents are, that the temptation shall be removed from him to charge illegal fees for the sake of swelling his emoluments—and the further temptation of giving meagre salaries to his clerks for the same purpose. It thus protects both the subordinate clerks of the office, and the unfortunate litigant. If such a principle, with such beneficent incidents is wrong, the lawyers who signed the petition have a different standard from which to judge right and wrong than I have.

The second charge is, that "it *compels an unfortunate class to supply the county treasury out of their misfortune!*" This is a most extraordinary charge to come from such high legal authority, in so solemn a manner, being, as it is, wholly devoid of truth. The fee bill does not, either in whole or part, either directly or indirectly, compel an unfortunate class to pay anything more than was required of them before the bill passed, unless, indeed, the schedule of fees sent on by some of these same lawyers, and appended to the bill at their request, was an increase of fees. They asserted that it was on the whole a decrease of fees. That is their own matter. I cannot take it on myself to say whether it is or not. If it is not, then the unfortunate class spoken of are not compelled to do anything more than they were before the bill passed.

There is a quibble in the statement of the charge, which may be urged in its favor. It says that this "unfortunate class" is compelled to supply the county treasury, because the fee bill requires all fees to be paid into the county treasury in the first place, but it also requires them to be paid out in salaries and clerk hire, and State taxes, leaving the surplus, if any, which used to go into the pockets of the officers, to go into the county treasury, to help to pay the enormous expenses accruing to the taxpayers from litigation. But in no aspect of the case does it change the relations of the litigant, the "unfortunate class," one iota for the worse, but immensely for the better, as it protects him from illegal fees which every one of these lawyers knows litigants were subjected to before the passage of the bill.

The petition also says that "justice should be cheap and readily accessible," thus by inuendo conveying the impression that the fee bill had made justice dear and inaccessible. Now there is nothing in the act, either in its letter or spirit, which justifies such an inference. The inuendo is wholly unjustified by any thing in the bill or in its practical working, and is unworthy of the gentlemen whose names are appended to the petition.

It is notorious that before the passage of the fee bill, illegal fees were charged almost universally in some if not all the offices, and thus the "unfortunate class" had no protection, and it has been asserted that through the lawyers they could get none, because these gentlemen could not afford to quarrel with the officers. The fee bill cuts up illegal fees by the roots, and removes the temptation to charge them. Thus it has really cheapened litigation, and been of immense benefit to the "unfortunate class."

What the petition means by the word "accessible," unless it means that the fee bill has rendered justice less accessible than before, I cannot guess. If it does mean that, the petitioners have insinuated what is not the fact so far as any requirement in the fee bill is concerned.

These petitioners lay great stress on the assumption that the "unfortunate class" are required to supply the county treasury, but they make no complaint that the State requires one-half of all the fees from Allegheny county officers, after deducting fifteen hundred dollars, allowing nothing for expenses and clerk hire. Has the State got this, although the officers have had to swear that they made a true and just return? In 1868 the whole amount received by the State for her share of one half of the fees after deducting fifteen hundred dollars for each officer, was from the prothonotary, the Clerk of the Courts, the Register and Recorder of Allegheny county about eight thousand dollars, and from Philadelphia county, fifteen hundred dollars. In 1870 from Allegheny county about eight thousand, and from Philadelphia county about ten thousand dollars. Thus, if we can believe these returns, made under oath, the above mentioned officers in Allegheny county had only about eight thousand dollars with which to pay their clerks for one year, and only fifteen hundred dollars apiece for themselves. Does any body believe that they had no more? This is the system which these petitioners would have us to go back to, a system so fearfully demoralizing that no good citizen can look on it without disgust.

Messrs. Editors, I write with some warmth. It is painful to see highly respectable men, to whose hands are committed the legal rights of the people, and who ought to be the guardians of public and political justice, going out of their way to attack a measure of reform with which they have no more to do than the humblest citizen, and which in no sense interferes with their business. But the most painful part is, that their petition is a tissue of blunders and perversions, and conveys an impression entirely unwarranted by the law itself.

It makes no more difference to me than to any other citizen, whether this reform, passed into a law after so much labor, at the urgent demand of the people, shall be destroyed before it is entirely inaugurated, and before it is fully tested. The office-holders, and those who expect to fill the offices hereafter, have fought the measure with unrelenting perseverance, from its inception. The people fearing no danger, have remained quiescent. If the bill is repealed, or substituted by another, which virtually repeals it, and leaves nothing but the apple of sodom to amuse the voters, I shall have nothing with which to reproach myself. I have fulfilled my pledges made in writing, I have procured the passage of a measure of reform which its enemies can only assail by perversions and inuendoes, and if it shall fail it will be because the lust for office and money is more powerful than the desire for reform in the minds of the people.

CATACAZY'S CASE.

Text of the Note of Prince Gortschakoff to Minister Curtin.

ST. PETERSBURG, January 4.—To-day's *Official Messenger* publishes the following note of Prince Gortschakoff to Mr. Curtin, United States Emperor to the Russian Court. It must be remarked that documents of this sort are seldom published in Russia, except when the Government has some particular aim in making them known to the public:

NOTE OF THE CHANCELLOR OF THE EMPIRE TO THE NORTH AMERICAN AMBASSADOR, MR. CURTIN.

ST. PETERSBURG, December 21, 1871, (January 2, 1872.) SIR: I had the honor to receive the dispatch addressed to you by Mr. Fish on the 4th (16th) of November last, a copy of which you were instructed to leave with me. The painful affair of M. Catacazy began and grew up during my absence. On my return to St. Petersburg, I took care to make myself acquainted with all its details. I found that the *pro tempore* Minister of Foreign Affairs, Privy Councillor Westmann, without repudiating the requests of the United States Government, expressed only the wish that, for the sake of decency and convenience, M. Catacazy should continue to perform his duties during His Highness the Grand Duke Alexis' sojourn in the United States. Your Government accepted these considerations, and M. Catacazy received consequently orders to return to Russia as soon as the Grand Duke should have left America, and it was also intimated to him that he would no more return to his post. It seemed to me that, after such an acquiesence on the part of the Imperial Cabinet to all that was asked for in the requests of the United States, the whole affair ought to have been considered as one finally settled, according to the rules of courtesy in force between Cabinets. It was, therefore, not without regret that I learned of the correspondence that was going on on the spot—a correspondence which, in my opinion, was quite purposeless, and in which neither sufficient attention nor respect was shown to a Russian Ambassador still performing his duties.

The communications you made me, in accordance with Mr. Fish's instructions, consist of two distinct parts. The one contains the request to recall M. Catacazy, with deference to which, as I said, we have already given our acquiescence to the wishes of the United States Government. The other contains the complaints against our Ambassador. This second part makes the Imperial Cabinet a judge of M. Catacazy's conduct. We shall give this due consideration. But I must tell you that against many of these complaints M. Catacazy has furnished us in his reports with the fullest refutations long before we knew anything about Mr. Fish's despatch. However, ideas of right are sufficiently spread in the United States to make us believe that the Secretary of State will not expect us to pronounce a verdict before we have given a fair hearing to the accused. Consequently, we must, at present, forbear from any judgment, and give M. Catacazy full liberty for presenting all the arguments he can in his favor.

I am firmly convinced that such a manner of viewing things will be duly appreciated by the United States Government, and, on the other hand I will preserve the belief that, however painful this affair is, it will in no way alter the feelings of old and sincere friendship which unite the two countries, all the more as the feelings have been quite recently so brilliantly confirmed by the hearty welcome given by the American people to the son of my august master.

Believe me, sir, &c., &c.,
GORTSCHAKOFF.

THE LOUISE HOME.

One of W. W. Corcoran's Monuments.

[Washington Correspondence of the Christian Mirror.]

The "Louise Home" is a haven and resting place for elderly ladies of gentle birth, established by the munificent liberality of Mr. W. W. Corcoran, and at an expenditure of but little less than $200,000, besides the cost of the annual support. Mr. Corcoran is now in the ripe and golden years of three score and ten.

He has, by thrift, skill, and prudent boldness, accumulated a great fortune. For some years he has mourned the loss of his wife and only daughter, both bearing the name of Louise. And when he would build a fitting monument to embalm their memory, it came that this Home grew up in his thought, and was then begun and builded. Now it stands high and stately on one of the most sightly places in the city, and is massive in proportions and fair in all architectural graces. A wide space all around gives ample room for light and air, and beautiful gardens near by add at once to the charms in the sight of the looker-on and the happiness of the inmates.

The cheerfulness and beauty of the exterior only betoken what may be found within. The furniture throughout is as handsome as would be chosen for a private house. The table equipage is in beautiful taste. Even in the parlors a piano, games, and books are supplied with most thoughtful care. Then there are some sixty private apartments for the use of inmates of the house, some of them arranged in suits of parlor and bed room, the others being simply single rooms. They all have windows on one of the four fronts of the building, and are large, light and airy, and amply provided with heat and thorough ventilation. An elevator helps the sick, or aged, or infirm, to mount the higher stories. The rooms being ranged about the sides and approached from galleries on the inside wall, there is afforded a large quadrangle in the centre of the building, and this being covered by a glass roof, gives, on the main floor, on the lower story, a large and charming space for walks, exercise, or recreation. This arrangement of rooms is excellent for individual privacy and for all purposes of inspection and domestic regulation.

The table is not extravagantly spread, but is amply supplied with everything needed for the delicate and variable tastes of the inmates. While it ranks among our public charities, yet the conditions thrown about the admittance of inmates makes it only measurably a public institution. The aim is to provide for old ladies, women of good family, education, and refinement, who, by any adversity, are obliged to find some help for a decent and accustomed support. No fee is charged for admission. The inmate is at no expense for anything else beside, excepting, of course, clothing and such personal affairs, and the regulations for the Home are most simple. The inmates are requested to be punctual at the three daily meals—a certain tidiness of dress on coming to meals and in appearing in the parlors or public rooms is also requested—and to be in the house before 9 o'clock in the evening. In devising these brief rules, there has been the most tender regard for the feelings of those who may seek the rest and comforts of this home.

THE N. Y. *Commercial Advertiser* says: "The call for a convention at Cincinnati on the 6th of May next, to prevent the renomination of General Grant, comes from the same quarter that the convention was called eight years ago at Cleveland, to defeat the renomination of President Lincoln. St. Louis seems to be the headquarters of lunatics, radicals and sore-headed politicians. The call for the Cleveland convention, eight years ago, came from the "impracticable and noisy lagerbier reds of Missouri." These men were about as crazy over Fremont as they are over Schurz. That they will find some other discontented materials in different sections of the country, we have no doubt. That their efforts will amount to just about as much as the Cleveland gathering did, no one with ordinary sense can doubt. We predict that the Cincinnati gathering of sore-heads will turn out a great fizzle."

THE "coming man" of Wall street is said to be a Henry Smith. He was formerly a member of the firm of Fisk, Gould & Martin, but withdrew therefrom some-time since, and has been operating in his own name. He spends his time in Wall street, dealing in railway shares—sometimes carrying millions of dollars worth. It stated that he made $4,000,000 clear last year, and that he is now worth from $7,000,000 to $10,000,000. He is a bold speculater, who, having once calculated the chances, persistently pushes forward till success crowns his efforts. It is predicted of him that his immense railroad interests will necessitate his becoming manager of some one of the great railroad corporations. Vanderbilt, Gould and other "princes" are said to recognize in Mr. Smith "a foeman worthy of their steel," and prophesy that he will become "dictator" of the street.

INWARD INJURIES.

Those outward manifestations of frail and departing health are easily detected; in truth, outward signs are often marks of an inward disease. The pale face, the lustreless eye, the sunken and hollow cheek, with now and again the circumscribed spot, which, whilst it may not like that on Cæsar's face, denote anger, but it does denote something lacking harmony in the inward workings of the human constitution. How quickly does your ear catch the irregular strokes of the pendulum of the clock which indicates something wrong in its internal workings; but how vastly more certain, and of infinitely more importance, is the muffled beat of the heart, or the gurgling sound of the lungs, in warning us of the faulty performance of those organs in the human organism. When to this is added the cough, the pains in the chest, the difficult breathing, the livid color of the lips, the hectic fever and the night sweats; what more can be wanting to apprise us of approaching danger. Take Dr. Keyser's Lung Cure. Remove the peccant matter before the wheels of life are loaded until they revolve no longer in unison with that beautiful harmony of health which the God of Nature meant for all.

Sold at $1.50 per bottle; 4 for $5, at 167 Liberty street. Dr. Keyser's private office for Lung examinations in the rear. Office hours from 10 A. M. to 1 P. M., and from 3 to 6, except Sundays and Tuesdays.

CAUTION.

The efficacy of PANCREATIC EMULSION and PANCREATINE and its preparations in the treatment of Consumption, Indigestion and Wasting Diseases, depending entirely upon their purity and strength, Messrs. SAVORY & MOORE caution the public against inferior preparations, which are calculated to cause disappointment and to injure the reputation these medicines have acquired. Purchasers should see that each bottle has the names of Savory & Moore and their trade mark.

Sold in Pittsburgh only at
JAMES E. BURNS & CO.'S
DRUG STORE and PERFUME and PATENT MEDICINE DEPOT,
Corner of Penn and Sixth streets (late St. Clair).

FRAUDULENT MISREPRESENTATIONS.

Among the pernicious frauds of the period, there is one which especially deserves the reprehension of all who place a proper value on health and life. The swindle referred to consists in the attempts of irresponsible parties, in different sections of the United States, to force upon the market vile astringent compounds manufactured out of damaged or worthless drugs and refuse liquor, as preparations possessing the rare medicinal virtues of the most popular and efficacious of all vegetable tonics and alteratives—Hostetter's Stomach Bitters.

The concocters of these "local bitters" are, in the truest sense of the phrase, *public enemies*. Their fiery potions inflame the stomachs, stupefy the brains, and shatter the nerves of those who are unwise enough to accept them as substitutes for the famous Vegetable Invigorant, that for twenty years has been known throughout the Western Hemisphere as a standard article.

The fame of Hostetter's Bitters as a health-preserving, vitalizing medicine is as wide as the world, and the miserable attempts of needy nostrum-mongers to supplant it would be treated with silent contempt, were it not that serious consequences sometimes follows the use of the nefarious compounds in question. Whoever recommends any of them as remedies for Dyspepsia, Biliousness, Constipation, Intermittent Fever, Rheumatism, or any other complaint for which Hostetter's Bitters is a known specific, is guilty of a moral, if not a legal misdemeanor. At this season, when the sun is releasing from the earth, in the form of unwholesome vapors, the active principle of disease, a course of Hostetter's Bitters will be of the utmost service to persons with feeble constitutions.

NEW YORK, January 29, 1872.

Gold sold up to 110 this morning on all kinds of sensational rumors, but closed heavy at 109⅜@109⅜. Loans were from 4 to 7 for carrying. Clearances $54,750,000. Governments strong and higher. The stock market was heavy during the greater part of the day, and prices declined ⅜ to 1⅜ per cent. The decline was most marked in Union Pacific, Pacific Mail, Ohios, Lake Shore and Hannibal & St. Joseph. At the close of the day the market assumed a firmer tone, and there was a recovery of ⅜ to 1 per cent. in the general list. The money market was made active for stock brokers to-day at 7 per cent. currency to 7 per cent. gold, but at the close the supply at 7 per cent. currency was in excess of the demand. Southern State securities on the last call were generally steady; Missouris were exceptionally weak and declined nearly 1 per cent.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, January 29, 1872.

ASHES—Reported firm but unchanged. Common Soda, 4 cts; refined, 4⅜@4⅜; Nitrate Soda, 5; Pots, 10; Pearls, 11.

APPLE BUTTER—Common to fair 50@55 cts per gallon, prime to choice, 60@65.

APPLES—We can report a steady demand and regular sales at $3,00@3,50 per bbl for common to fair, and $4,00@4,50 for prime to choice.

BUTTER—As noted in our last report, there is an improved demand for strictly prime, and the supply of this particular kind is light; low grade butter is very dull and very abundant. The former kind may be quoted at 23@25, for prime to choice roll.

BROOM CORN—Continues dull and nominally unchanged; we continue to quote at 7@10 cts per lb.

BUCKWHEAT FLOUR—Continues dull with a drooping tendency; quoted at 4 cts per lb.

BEANS—Receipts light, but the supply is fully up to the demand, and prices remain unchanged; $2,00@2,50 per bushel.

CIDER—Sales at $5@10 per bbl, according to quality and size of barrel.

CORN MEAL—Is quoted in a jobbing way at $1,65 per cwt or 80 cts per bushel.

CRANBERRIES—Sales of eastern at $13@16 per bbl, as to quality; Sackett's still quoted at $17,00.

CANDLES—Mould, 12 cts; Star, 21.

CARBON OIL—Standard brands, by the car load, 21 cts; usual advance for small lots. Trade dull.

CHEESE—Is firmer, under the influence of an advance in New York, but prices are unchanged; Goshen, 15⅜@16; Factory, 14⅜@15; Dairy, 13⅜@14.

COUNTRY LARD—Is coming in freely, and stocks are accumulating; prices, however, remain unchanged. 8@8⅜ cts.

CANNED GOODS—Peaches, $6,00@6,50 per case; Tomatoes, $4,25@4,50; Winslow's Corn, $5,00@5,50.

CONCENTRATD LYE—Quoted at $6 per case.

DRESSED HOGS—Dull, 5@6 cts.

EGGS—The demand is generally reported light, and, notwithstanding stocks are meagre, prices are barely maintained, 30@33 for fresh, and 25@28 for pickeled.

FLOUR—Is firm, and, notwithstanding the demand is entirely local, prices are well maintained. We continue to quote good to choice red winter wheat at $7,50@7,75; choice Minnesota flour, $7,75, and fair to good spring extras at $7,25@7,50. Rye Flour, in small lots, $5,50. Our dispatches, of Saturday, reported flour firm in the west, but quiet and rather dull in the east; trade has been dull at the seaboard markets for some time past, as there is little or no demand for export.

FRUITS—Peaches dull; halves, 10@10⅜; mixed, 8@8⅜; quarters, 7@7⅜; peeled, 15@20. Apples, 6⅜@7⅜ for common to fair, and 8@8⅜ for prime to choice. Blackberries, 14@15. Prunes, 10 cts. Layer Raisins, $3 per box, for old, and $3,75 for new; Valencia Raisins, 13c per lb. Messina Oranges, $3,25@3,50 per box. St. Michaels, $4,00@4,50; Valencias, $7,00@7,50 per case. Lemons, $4,00@4,50 per box.

GRAIN—Wheat receipts very light and market bare, common to choice red may be quoted at $1,48@1,52, white 2@3 cts higher. Rye in good demand with sales at 95c. Corn continues dull with a limited inquiry, mixed ear reported at 58@60, shelled 60@62. Barley receipts light but equal to the demand, prices depend very much on the quality of barley offered. Oats in good demand, may be fairly quoted at 50c, and with increased receipts and low price for corn, are not likely to go much higher, the bulk of the oats needed, however, to supply this market must come from distant points and if present high rates of freight are continued, prices may be well maintained through the remainder of the season.

GROCERIES—Since our last general report Rio coffee has advanced a full ⅜c per lb. and the general opinion is that a further advance will soon follow. The importers views having been sustained by the latest Rio mails and telegrams, giving accounts of small receipts and light shipments, they are determined, being mostly possessed of large means and credit, to make the most out of their present strong position by holding off until buyers are forced by their wants to pay the prices demanded. The latest Rio telegram reports the daily receipts from the interior of Brazil at 3,000 bags, or (say) 90,000 bags per month while the stock held in first hands in the United States is about 114,000 bags. Unless the receipts at Rio grow larger and the shipments from thence are heavier, the stock in this country will be so far reduced at the end of February as to cause prices to run up in the neighborhood of 28 to 30c currency—for the present stock in the United States will not last one month, nor will our share of the present daily accumulation, at Rio, be sufficient, by at least one-half, to keep up the growing wants of the trade. It is believed, however, in certain quarters that the light receipts at Rio were occasioned by the suspension of business usual in slave holding countries during the holiday season—the late news comprising the business operations between the 23d of December and the 5th of January. In this view of the case it is thought by some that the next news will show larger receipts and consequently have a depressing effect upon our market. In any view of the situation we are inclined to the opinion that no diminution in values will occur for a month to come, and not then if the deficiency in the crop of Brazil is verified. Other descriptions, such as Java, Maricaibo, &c., are in good request at full figures. The next news from Rio will be looked for with much interest. Sugar—The market for raw sugar is not strong unless we except choice grades which are scarce and command high figures. Refined is firmer and the market almost bare of goods. Molasses—New Orleans molasses still hold a high head, and we do not expect to see any falling off in prices during the season. Syrups a shade better at the close of the week and higher prices anticipated. Some grades are selling at reduced figures, but dealers are taking up all the cheap lots offered on the eastern markets for speculative purposes. Rice—Carolina firm and prices hard, with very little for sale in this market. Rangoon and Patna steady at our quotations.

SUGARS—Refined—Standard Hards, 13⅜; A, 12⅜; B, 12⅜; Ex. C, 12⅜; C. Yellow, 12⅜. Porto Rico Sugars—Choice, 11; Prime, 10⅜; Good, 10. Demarara, 11⅜@12. New Orleans—fair, 10; good, 10⅜; prime, 11; choice, 11⅜.

SYRUPS—Havemyer & Elder's, 60. White Honey, 60. Lovering's, 60. Durant's, 60. Sugar Drips, 75; Brune's, 60; other grades, 48@60. New Orleans Molasses, old, 50. New crop, 60.

RICE—Choice Carolina, 9⅜; Good, 9; Fair, 8⅜. Rangoon, 8. Patna, 8⅜.

SPICES—Pepper, 23. Allspice, 18. Cassia, 50. Cloves, 35. Nutmegs, $1,40.

HONEY—Sales at 25@30 cts.

HOMINY—Sales at $4,50 per bbl to the trade and $5 in a jobbing way.

HAY—Continues quiet but the feeling is growing firmer and if the present cold snap should hold out for a week or two longer, prices will no doubt do better; for time being however, the demand is light, as consumers generally are pretty well supplied, and, as yet there is no quotable improvement in prices. We continue to quote baled at $20@25 in round lots, and $23@27 in a small way, according to quality.

LARD OIL—Is firmer and tending upward; No. 1 Extra, in a jobbing way, 85@87 cts.

LIME—Perrysburg white, $2,00@2,25 per bbl; Cleveland $2,25; Eastern, $1,75.

MILL FEED—Sales, in a jobbing way, from store, at $22@23 per ton for Bran; $25@26 for Seconds; $35@36 for Middlings, and $40 for Oil Meal.

ONIONS—In fair supply and limited demand; quoted at $2@3 per bbl, as to quality.

POULTRY—Is in fair supply but unchanged 12@14 for dressed Chickens; 15@17 for Turkeys and Ducks. Geese very dull; we quote nominally at 9@11 cts.

POTATOES—There is no improvement in the demand and the market continues dull while prices are unchanged; we continue to quote in a jobbing way at 75@85 cts per bushel, according to quality.

PROVISIONS—Plain Bacon Shoulders, 7⅜; sugar cured shoulders, 8⅜; ribbed sides, 8; short ribbed, 8⅜; clear, 9; sugar cured hams, 13. Dried Beef, 16⅜. Mess Pork, $14,50@15.00. Ham Sausage, 11. Lard: in tierces, 9⅜; in kegs and buckets, 10⅜@11.

RAGS—Sales, 4@4⅜ cts per lb.

SALT—Is quoted at $1,85 per bbl, by the car load, and $2 in a jobbing way.

SHAKER CORN—13@14 cts per lb.

SEEDS—Clover Seed continues very quiet but an improved demand is expected next month, and, in consequence, holders are not disposed to make concessions in order to effect sales; we continue to quote at $6@6.50, buying and selling. Timothy Seed is scarce, and firm and higher; we now quote at $3,50@4,00. Flaxseed is unchanged at $1,80.

CATTLE.

The supply of cattle on sale to-day was again liberal, footing up 48 loads, or, counting 19 to the car, 912 head; of these, 22 loads were brought over from East Liberty, having been bought there for this market last week; 24 cars were from Chicago, Indiana and Ohio, and there were about two loads driven in from the country; if anything, we are under, instead of being over the number, and the supply would have been still larger, but for the detention of several cars from Chicago, four of which were to arrive this afternoon. The average quality was common, the great proportion of the offerings consisting of the common and medium grades, and, while prime butchers cattle sold readily, and, that too, at full prices, the common and medium were slow from the opening to the close, dragging all the way through, and there were quite a number of odds and ends left over unsold—some 5 or 6 car loads in all. The demand was entirely local; there were no buyers, so far as we could learn, aside from the butchers, and, as the supply of the common and medium grades was somewhat in excess of the demand, trade for these grades, as already noted, was slow, and prices ruled lower.

Prime to extra butchers stock sold at from 6⅜ to 7 cts—with some few at 7⅜; medium to good, 5⅜@6 cts. Stock steers may be quoted at 4@4⅜ cts, according to quality, and the number of this kind to-day was small, not exceeding two or three cars. There is a fair inquiry for stockers, but dealers allege that they cannot be brought here and sold for what farmers are willing to pay, and this accounts for light offerings of this particular kind; farmers generally lost money on the stockers they bought one year ago, being obliged, in many instances to sell their cattle when fatted for less than they cost, and, as might naturally be expected, they want to lay them in now considerably cheaper, and it behooves them to do so, as there is nothing in the situation at present to warrant any higher prices in 1872 than prevailed in 1871.

Fresh cows, in fair supply, and those who operate in this kind of stock report the market very dull; may be quoted at $30@50 each, for common to fair, and $55@65 for good to No. 1.

Hazlewood & Blackstock sold two loads of mixed Ohio stock at 4⅜@6⅜—one load over.

L Shamberg retailed one load at 5⅜@6⅜.

Holmes, Lafferty & Co. report 51 head of Ohio and Indiana stock at 4⅜@6⅜.

S Traurman, 52 from Champagne Co., Ohio, of which 19 were left over.

Greenwald & Kahn report 72 head of mixed Ohio and Illinois stock at 4⅜@7⅜.

Sadler, Havens & Co. report 70 head of mixed stock, from Illinois and Ohio, at 4⅜@6⅜.

Carr & McAllister report having sold one load of small but smooth, fat steers, from Knox Co., Ohio, for T R Head, at 5⅜@6⅜ cts.

Jacob Lobman, 25 head of mixed Ohio stock, common to good, at 4⅜@6⅜.

J W Unger sold 6 fresh cows at $35@55 each, according to quality. Reports market very dull.

Keefer & Beyer report 37 head of fair to good butchers stock at 5@6 cts.

Jas Shaw reports 9 head of commonish stock, from Lawrence Co., at 4@4⅜.

S Bradley had 13 head of good Penna. stock—up until 10⅜ o'clock all unsold.

Rothchilds & Zeigler report 2 loads of fair to good butchers stock at 5@6⅜.

M Kraus sold—fair to good at 5⅜@6⅜.

Jacob Shamberg, one load of good stockers at 4@4⅜; 3 loads of butchers stock at 5@7 cts.

M Varner reports 32 head of fair to good butchers stock, from Chicago, at 5⅜@6⅜.

S Lowensteine, 50 head of mixed western stock at 4@7 cts.

S Marks & Bro., 52 from Ohio and 20 from Chicago, sold at 5⅜@7⅜.

Hartman & Moonshine, one load from Chicago and one load on commission, at 5⅜@6c.

Jacob Needy reports 4 loads—one load left over.

F Hector, 14 head of fair to good Ohio steers at 4@6 cts.

E Katz reports two loads of fair to good Ohio stock at 5⅜@7 cts.

SHEEP AND LAMBS.

The supply of sheep was very meagre to-day not exceeding if reaching 200 head and with a fair demand the market was steady and prices fully maintained. Notwithstanding the fact that sheep are the dearest kind of stock, selling at 2@2⅜ cts per lb more than hogs and ⅜ to 1 cent per lb above cattle, yet drovers allege that there is no money in handling them, that they are higher relatively in the country than they are here and that farmers generally are very indifferent about selling even at present prices. Prime to extra may be quoted at 7@7⅜; fair to good at 6@6⅜; and common at 5@5⅜.

J W Unger sold 17 common coarse wool sheep averaging 72 lbs at $4.60 per head.

J W Stewart reports having retailed 50 fair to good at 6@7 cts.

There were some other sales the particulars of which we did not ascertain.

HOGS.

The supply of hogs was also light and with a fair demand, the market was steady without, however, any quotable change in prices; sales were made in a retail way at 4⅜@5⅜, gross, the great proportion of the operations were within the range of 4⅜@5⅜—there were but few sales above 5⅜ and not very many even at that.

J W Unger sold 20 good stock hogs averaging 160 lbs at 4⅜.

River Intelligence.

The weather Sunday night and yesterday was stinging cold, and, consequently, the prospects for navigation are not very flattering. The thermometer at 6 a. m. was down to zero, and at 5 p. m., 11 degrees above.

The Kate Putnam, we learn, has reached the wharfboat at Rochester. Of course, she will get no further for the present.

—The Memphis *Avalanche*, of Thursday, says the towboat Sampson, with nine boats and barges of coal—some 158,000 bushels in all—arrived yesterday morning from Cairo. All her fleet is for the use of dealers in this city. The Ironsides, from Pittsburgh on her way South, came down yesterday with a large lot of gas work stuff and other freights for this city. Captain Nick Wall, well known among river men about St. Louis, is on a visit to this city. Captain W. has been a resident of Colorado for a number of years past, but he has pulled up stakes and departed forever from the arid plains of that wild country.

—The New Orleans National Republican, of Tuesday, says: The rivermen along the Mississippi river are not only much surprized, but disgusted with the action of the once Gen. Jeff. Thompson of C. S. A., as regards his partisan action in the present political difficulties. There is also much comment in river circles by men who served under a general named Longstreet, for the part he played with the revolutionary party.

—The Louisville *Courier-Journal* of Saturday says; "The river is again gorged at two or three points between this and Cincinnati. The first gorge is at the head of the towhead, extending a considerrble distance up the river; the ice is said to be thick enough to admit of pedestrians crossing from shore to shore. Between here and Evansville heavy running ice is reported, in consequence of which the Henderson packet Morning Star did not leave yesterday evening. How long this ice blockade will last depends entirely upon the weather.

—The Katie P. Kountz, en route from New Orleans has the following for this end of the river, Bridgeport—E. P. Rhodes & Son., 78 hhds sugar. Wheeling—Neil & Ellingham, 25 bbls molasses, 7 half bbls molasses; O. Sons & Co., 40 bbls molasses. Steubenville—Brown & Davidson, 50 bbls molasses. Pittsburgh—Haslage & Co., 25 bbls molasses; J. S. Dilworth, 70 bbls molasses; McCully & Co., 4 casks broken glass; Chess, Smyth & Co., 1 box nails.

—The Sioux City *Journal*, of the 24th, says: "H. D. Booge, of St. Louis, who has been in this city for the past month, will return to his home to-day. Captain Grant Marsh, of the steamer Nellie Peck, arrived here by the noon train on yesterday, accompanied by his family. The Captain will immediately proceed to dock the Northwest Transportation Companys boats in this city."

—Says Walt, of Cairo, in the Cincinnati *Commercial*: The Mary Houston left New Orleans without her bills, as many other boats have done, and, like them, did not find them where it was arranged that she should. The habit of leaving without bills of lading seems to be growing upon steamboatmen, and yet I have not seen one who has done so who does not declare he will not be caught in such a fix a second time.

—The Newport Bridge Company are now flying two red flags from the bridge over where the coffer damn in the main channel span are, as there is not enough water at the present stage for boats to pass over in safety. Boats can either run between the two red flags or between the flag and the Newport pier.

—The Evansville *Journal*, 25th, says: The Kate Kinney left with fully 800 tons and drawing 6 feet, her guards being close down to the water. She had engagements a short distance below for 4,000 bags of corn, but Capt. King thought he could only safely take 1,000 bags.

—The steamer Fort Gibson of the Arkansas packet line, has saved a large portion of the sunken Importer's cotton cargo, and will likely make a good thing in the way of salvage at $15 per bale out of it.

—A. C. Green, formerly a steamboat clerk on Red river, and the Trinity, has arrived at St. Louis and intends to make that his home for the future. He was a resident of New Orleans about twenty years.

—A late Memphis paper says: Captain Thorwegan left yesterday for Cairo, accompanied by Mr. Hartupee, original engineer of the Great Republic, who resumes his former position on the boat.

—The Esperanza and Exchange, en route from New Orleans to Pittsburgh, are icebound at Louisville.

—The Carrie Converse has broken in two, and all hopes to save her have been abandoned.

HOME NEWS.

Over the Hill.

Yesterday morning a boy whose name could not be ascertained, while driving along Quarry street, on the side of the hill above Spring Garden avenue, Allegheny, attempted to turn the vehicle, when the horse backed too far, and the turnout, horse, wagon and boy, went over the hillside. The boy saved himself by jumping out of the wagon. The vehicle and horse rolled over and over to the road below, and the result was, the complete demolition of the wagon and the death of the horse. The boy escaped with but a few slight bruises.

Savings Banks.

Referring to the *runs* being made upon several saving institutions in New York, it is a great satisfaction to us to look at the healthy condition out home Savings Banks are shown to be in.

Among the most prosperous of these and newest and youngest is the Nation's Bank for Savings, of Allegheny. We should say also the only one in Allegheny. This Bank has only been in operation about seven weeks, and we learn it has now over *one hundred and fifty* deposit accounts open. This certainly speaks volumes for its management, and for the confidence in which it is held by the people. The Nations Bank is located at No. 51 North Diamond, Allegheny.

New Music.

We have received a ballad entitled, "There is a Flower," written by Willfred Montresser, dedicated to "Alice" and set to music by Alexander Pietschner. The poetry possesses considerable merit, and the strong emotions expressed in it will no doubt be duly appreciated by the fair and accomplished young lady to whom it is dedicated. The musical composition is also highly creditable. It is rather difficult of execution for an *amateur*, but it is ranked by the profession among the "classical" productions, and of course, can only be duly appreciated by members thereof. Mr. Pietschner has composed several pieces, but this is his first effort in the vocal line, in which he gives considerable promise. The piece is well worthy of all concerned.

"My Little one's Waiting for me, written and composed by J. A. Barney, has also been laid on our table. It is published by the Pittsburgh Music Publishing Company, No. 62 Fifth avenue.

Flurry, Flurry.

The wind has, for the past day or two, been making sad havoc with the dirt in the cart-ways of the city. It is no fault of the elements that our streets and sidewalks are not clean. They have driven it hither and yon, but found no outlet; they have lifted it from the street and dumped it on the sidewalks; they have filled doors and windows with it, and the noses, eyes and ears of passengers have had an undue share of the deposits; chips and dust, straw and dried manure are as abounding even at the threshold of our City Hall as in the stalls of a stable, but somehow the authorities do not see it, and our city is becoming as noted for its dirt as for its smoke. The ordinances are absolete so far as any practical enforcement of them is concerned; strangers sojourning here cry shame! shame! The smoke cannot be avoided, perhaps. The late Judge Huston said it was the "smoke of our industry," and our street authorities seem to treat the accumulated filth in the streets as the dirt of our industry. We join the stranger's cry, and say shame! shame! In Chicago, before the fire at least, the streets were swept after midnight every night and the wooden pavements were thoroughly clean in the morning. Why can we not do likewise? as well for decency as for sanitary purposes.

Public Entertainments.

NEW OPERA HOUSE.—There was a very good house in attendance to see Mr. Forrest in his impersonations of King Lear, last evening. His rendition of this,—his greatest *role*,—was all that his most sanguine admirers could wish. To-night Jack Cade.

FIFTH AVENUE OPERA HOUSE.—A full house, and a very appreciative audience were in attendance at the Fifth Avenue Opera House last evening to greet the "peerless Morlacchi" in the thrilling military drama of the "French Spy." The same bill again to-night, and we shall anticipate for "Morlacchi" a full, if not a crowded house.

LIBRARY HALL.—Wachtel, the great tenor, and his German Opera Company, will appear at Library Hall this evening, in Verdi's beautiful Opera, "Il Trovatore." A critic in an exchange, speaking of Watchel and his company, says: "The chorus was good. Miss Canissa, as "Leonora," elicited hearty applause. Indeed, we never heard her sing so well. It appears as if Wachtel infuses his own enthusiasm into his supporters, enabling them to excel their usual efforts. As "Manrico," Wachtel was the ardent lover, the tender, respectful son, the honorable rival and the brave chieftain—the man capable of leading the rude soldiers to victory or to death, as well as able to inspire the woman of his choice with love which prompted her to die for him but not to live for another. The audience was pleased throughout, but at times the enthusiasm amounted to a perfect frenzy. In rendering the concluding solo of the second sense, third act, Wachtel seemed to scale the very mountain top of sublimity, and the applause and shouts of his audience were something grand to witness."

A Resignation Withdrawn.

A short time since Rev. B. F. Woodburn tendered his resignation as pastor of the Sandusky street Baptist Church, Allegheny city, but at the urgent and unanimous request of the members, he last Sabbath withdrew it. He was recently elected President of the Baptist Seminary and Institute, recently chartered, at Mount Pleasant, Westmoreland, Pa', and it was expected that he would also be pastor of the Church at that place. The educational enterprise he felt to be an important one, and has had his sympathy and support from its incipiency. Forty-five thousand dollars ($45,000) has already been subscribed at that place, and it is proposed to raise if possible in all two hundred thousand dollars in Pennsylvania.

In offering his resignation, Mr. Woodburn did what he thought to be his duty, but after considering the subject for several weeks with the fact before him that it was the unanimous desire of the church and congregation for him to remain, he became convinced that duty called him to accede to their request. During the two years that he has been pastor of this church, nearly one hundred have been added to its membership, and a large amount of missionary work performed by him and his people. The utmost harmony and co-operation have prevailed; and now that he is to remain with them, new zeal and enthusiasm will doubtless be displayed.

Mr. Woodburn is an earnest, instructive speaker, a most faithful pastor and a warm hearted friend. His people are strongly attached to him, and he is respected by all who know him. He co-operates with all the religious and benevolent associations of our cities, and is regarded as one of the most efficient ministers engaged in them.

By remaining pastor of this church, Mr. Woodburn declines a call to a useful and desirable field of labor, and one whose pecuniary reward would have been nearly double of the one he now receives.

Mr. Cohen Vindicated.

We cordially endorse the following clipped from the *Evening Leader*. Mr. Cohen has been fully exonerated from all complicity with any irregulation that may have occurred at the election for Aldermen in the First ward:

"MR. COHEN VINDICATED.

Though we gave the gist of the court's opinion in the Hay-Humbert case in our Saturday's issue, and though the general implication contained therein is plain enough, yet as the court in speaking of the testimony mentioned no names, we feel that the bearing of that opinion and the decision following upon the character of the most prominent man implicated in the unpleasant affair, demands a fuller explanation. Josiah Cohen, Esq., one of our most talented young lawyers and rising politicians, was, as will be remembered, accused of having had something to do with the ballot-box stuffing which undoubtedly took place before the third count at that now notorious election in the First ward of Pittsburgh, and the published evidence seemed so confused and contradictory that the LEADER, and the press generally, though believing Mr. Cohen innocent, were unwilling to commit themselves to either side of the muddle by declaring him so. But the evidence has now been sifted, and the court, after due deliberation, declares in these strong words that "we are bound to say however, that the weight of evidence is clearly that the fraud in the last count (if fraud there was) was not committed, as alleged by the petitioners in their evidence." Now the petitioners, in their evidence, alleged plumply that the fraud was committed through the agency of Mr. Cohen, and the decision, therefore, is a distinct and complete exoneration of Mr. Cohen, from all complicity, either direct or indirect, with the fraud, "if fraud there was," which of course, there was. We are glad to have the opportunity to set Mr. Cohen right before the public in this matter, for the mere suspicion that has hung over him like a cloud, on account of it, has been exceedingly injurious to him in this community. But the cloud now passes away, and his prospects should become all the brighter for the temporary eclipse."

CITY VALUATION.

Mr. MCCARTHY presented the draft of an act as follows:

An Act giving power to the Councils of the city of Pittsburgh to equalize the valuations of taxable real estate within the city of Pittsburgh, for city purposes.

SECTION 1. That the Councils of the city of Pittsburgh, either by themselves or by their proper officers or agents, shall have the power to alter, revise and equalize the valuation of the taxable real estate within the city for city purposes.

SEC. 2. That the said Councils of the city of Pittsburgh shall take for city purposes the aggregate valuation of the taxable real estate within said city, assessed for county purposes, and in the altering, revising or equalizing said valuations for city purposes, they shall not increase the aggregate amount assessed for county purposes within the city.

Mr. MCCARTHY said: As the law now stands the city authorities have no control whatever over the equalization or exoneration of the valuation of real estate within the city. Under the law the County Commissioners have entire control over the amount of revenue from real estate derived by the city, a power which all past experience has shown to have not been used with the sound discretion so important a function should be exercised. By this bill this power is placed in the hands of the city authorities where it should properly reside.

The paper was referred to the Ordinance Committee.

Mr. E. P. JONES, resolution for preparation of drafts and surveys for opening Vine street to Wylie avenue. Referred to Street Committee.

SUNDAY READING ROOM.

The President read a petition from Mr. J. W. Pittock asking the use of the old City Hall as a free reading room on Sabbath afternoon. The room is to be provided with files of American and foreign papers of different languages, and the petitioner proposes to organize and keep up a Sabbath school, non-sectarian in its character, wherein shall be taught the rudiments of a common school education. Attached to the petition was a joint resolution granting the privilege asked.

Mr. PEARSON moved that a special committee, two from Select and three from Common Council to act in conjunction with the Market Committee. Adopted and Messrs. Pearson and House in part of S. C., and Messrs. Cohen, Verner and Darlington in part of C. C., were appointed.

Mr. PHILLIPS presented an ordinance fixing the salaries of city officers for 1872. Laid over for the time.

THE WATER COMMISSION.

Mr. BURGWIN presented a report from the Water Commission, setting forth that they had visited different points of interest and had opened negotiations for purchase of land for basins &c. They have not proposed to change any location heretofore fixed upon by the engineers. The Commission argue for the purchase of ample ground. The pumping ground needed is owned by B. W. Morgan & Co., who ask $20,000. Therefore for reservoirs the commission desire to purchase at Brilliant Hill and at head of Highland avenue, the latter owned by Mr. James McCully, who declines to make a proposition, not desiring to sell. The commission ask to have the appointment of viewers; other parties have made offers which have been accepted. Thirteen and one quarter acres are desired on Herron's Hill, but the parties have been unable to agree upon a price, and the appointment of viewers is contemplated. With the report are resolutions covering the recommendations of the Commission and approving their action as far as gone.

Mr. BURGWIN said that the matters contained in the report were now in the hands of Council and it was for them to act before the commissioner could go further.

Mr. PHILLIPS hoped the payments could be delayed a month or two later to allow disposal of bonds of the commission.

Mr. JEREMY wanted to know the amount and value of improvements on the two acres of B. W. Morgan & Co. He thought property near there could be had for 3,000 per acre.

Mr. BURGWIN said the property did not appear to amount to much, but the Commission thought the land worth the money.

Several members said the property being at the river side was much more valuable than on the higher ground.

The resolutions were read and approved finally.

Mr. PHILLIPS then read the ordinance fixing salaries which will be found published in another column. The ordinance was read three times and passed finally.

THE APPROPRIATION ORDINANCE.

Mr. PHILLIPS offered the "ordinance levying taxes making appropriations for the year 1872," which as passed will be found elsewhere. On motion the rules were suspended for the consideration of the ordinance.

Mr. CHALMERS said that of the appropriation for printing $4,000 would be taken at once and with $750 for the "Record" there would be but $250 left.

Mr. SHIPTON said to raise the money needed the committee had doubled the tax and the appropriations of the various committees *had* to be cut down. To change one as now fixed, the whole of the appropriations would have to be gone over. Strong petitions had been received, and merchants were with some reason complaining about the sales tax. If, said the gentleman, we can get through this year 1872 in the payment of city needs we ought to be thankful.

Mr. PHILLIPS said the committee were compelled to cut all down, and the best was done that could be done. The Street Committee were cut down from $80,000 to $50,000.

Mr. RAFFERTY said the Street Committee already owes about $20,000 which must come out of the $50,000. (Laughter.)

The ordinance was passed as presented by the Committee, and is as follows:

An Ordinance Levying Taxes and Making Appropriations for the Year 1872.

SECTION 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and it is hereby enacted by authority of the same, That for the purpose of providing sufficient revenue to meet the ordinary expenses of the city, to pay the interest on outstanding bonds, and to discharge all other liabilities now due, or which may become payable during said year 1872, taxes shall be and are hereby levied and assessed upon all property and other objects of taxation, as follows:

WHEREAS, The best and fairest way to accomplish this result, if practicable at all, is by consultation and interchange of views and opinions; therefore, to this end, be it

The Select Branch then joined the Common branch for the purpose of filling vacancies in the Board of Health.

On reassembling the President read a petition from ten citizens of the Twentieth ward, contesting the election of David Aiken to the Select Branch over John Barton, on account of an alleged informality in the papers.

Mr. PEARSON moved that the petition be referred to a committee to examine and report whether there is sufficient grounds for an investigation under the law. Adopted with the amendment "in conjunction with the City Solicitor," Messrs. Pearson, Burgwin and Chislett were appointed.

THE MUNICIPAL RECORD.

Mr. BARR presented the report of the Printing Committee, noting the election of Dr. A. M. Barr as chairman. The Committee also reported that the lowest bid for printing the "Municipal Record" was $750, and in view of the expense and of the fact that the appropriation for the Committee was not sufficient, they reported a resolution for the discontinuance of the "Record."

The report was received.

Mr. COHEN spoke in opposition to the discontinuance of the "Record," It was a necessity for Councilmen as a ready reference which could not be supplied in any other way. He believed in economy but didn't believe in cutting down necessities.

Mr. BARR said the Committee unanimously were of the opinion that the "Record" was a necessity, but they wouldn't have enough money to provide for it unless their appropriation was increased. The Committee had merely taken this action to enable the Finance Committee to make their appropriations.

Mr. MATTERN said the committee's appropriation was $5,000; $4,000 of this would have to be paid to official papers for the regular printing of the ordinances, &c. Then the job printing would amount to about $1500, and the Committees' expenses could not be paid.

Mr. FOLLANSBEE—But every gentleman here has a record of these proceedings in the daily papers. Can't we take the GAZETTE, or any of the papers, and is not that enough for a record. I think we can save this expense.

Mr. MATTERN—Well, do we want to carry the GAZETTE around in our pockets, from one day to another for the rest of the year.

Mr. EVAN JONES said they might as well face the matter at once; the appropriations were not large enough, and there was no use keeping their mouths shut when they knew that the appropriations would be run out in six or eight months. He thought the Committees should ask for what they wanted and get it.

Mr. MCCANDLESS said that "cutting down" was the order of the day. This had been done in every department, and the Printing Department only fared like the rest. This *Record* was something that *might* be done without, although it would be convenient to have it. He thought the committee's action judicious.

Mr. NEGLEY said they had already passed a resolution providing for the publication of the Record, and would have to re-consider that before going further.

Mr. FOLLANSBEE made a motion to reconsider.

Mr. COHEN rose to a point of order and held that the report was now under consideration, and no other business could be taken up.

The Chair decided the point well taken.

After some further discussion—

Mr. MCCANDLESS—I move the adoption of the report.

Mr. COHEN—I move to amend by adopting all but that part in reference to the Record.

Mr. MCCANDLESS hoped that nothing would be done to embarrass the Finance Committee in making their appropriations.

A vote was then taken on Mr. Cohen's motion to strike out that portion of the report in reference to the Municipal Record. The amendment was passed by a vote of 40 to 16. The report as amended was then approved.

THE SURVEY COMMITTEE.

Mr. KOHNE reported the organization of the Committee on Surveys by the election of Mr. John Fleming as chairman.

Mr. W. B. NEGLEY, from the Committee on Retrenchment and Reform, presented a report showing that they had organized by electing Mr. W. B. Negley as chairman. The committee also reported a proposed act of Assembly for the recording and publication of ordinances. The draft of the act was accompanied by a resolution instructing our representatives at Harrisburg to urge its passage. The report was received and resolution passed.

The matter of the petition of the Pleasant Valley Railway Company to allow their Smithfield street turn-table to remain, which had been granted in S. C. and refused in C. C. at last meeting, was reported from S. C. again, with an endorsement of adherence to former action. C. C. adhered and asked for Committee on Conference.

Mr. ARTHURS, from the the Street Committee presented the report of the viewers on damages on Second avenue extension, which was approved and viewers discharged. Report of viewers on opening of Fiftieth street. Approved. Report of viewers on sewer on Third avenue from Wood to Market streets. Approved.

Mr. GAZZAM, petitition from H. M. Bole asking for reduction of sewerage tax. Referred to Committee on Appeals; also resolution for gas lamp on First avenue. Referred to Gas Committee.

THE MALONE EXTRAS.

Mr. NEGLEY presented the following:

WHEREAS, The Market Committee made a report to Councils upon the claim of M. L. Malone for building the Fifth Avenue Market House, and it is alleged that said committee have since taken action with a view to the settlement of such claim—which action was unauthorized, the Councils not having acted upon said report therefore,

Resolved, That any action taken by said Committee since said report or said claim, is declared to be null and void, and that no further action shall be taken thereon by said Committee until Councils shall have finally acted upon said report.

The resolution was discussed at some length by Messrs. W. B. Negley, Evan Jones and McCandless, after which a vote was taken on the resolution, which was lost by a vote of 10 for to 38 against.

THE WATER WORKS.

The report from the Water Commission in relation to the purchase of ground for the new Water Works was then called up, as it came in from the Select Branch, and was read by the chair.

To get the matter open for debate, the report was received and the rules suspended to consider the accompanying resolutions.

A discussion of some length ensued.

Mr. MCCANDLESS asked for an explanation in reference to the amount of land. He didn't know what the Commission wanted with so much.

Mr. CARROLL, a member of the Commission stated that the Commission thought they ought to have enough land to give plenty of room for the buildings and basins. They at first proposed to buy twenty-five acres from Mr. Negley, but the part they wanted he would not sell for less than $8,000 or $9,000 an acre, because it was the choice spot of land. He (Negley) proposed to sell the whole lot, forty-six acres for $3,000 an acre, which in the end would bring the cost about the same as the twenty-five acres at $8,000; the purchase of the large piece therefore, was made on the score of economy, and further because it was needed.

Mr. FOLLANSBEE wanted to know if it was proposed to give Mr. Morgan $20,000 for only two acres?

Mr. CARROLL explained that there were three houses on the land, one of which was occupied by Mr. Morgan, and which was included.

Mr. WOOLSLAYER wanted to know where the water was to come from. The river at Negley's Run was a shallow place, and no pure water could be obtained there. He thought the location was not a suitable one. There never could be pure water procured there, as the refineries in the vicinity polluted it.

Mr. WATSON, a member of the Commission, said the place selected was the best site that could be procured on the Allegheny River. The refineries were being removed from the locality and the water was good. If, however, it was found to be in any way impure, the pipes could be extended up the river and the water taken from near Shade's Run. By locating the pumping engine at Negley's Run, they obtained the key to the position.

So far as the land was concerned he thought they were not purchasing half enough land, and he had advocated a large purchase. He thought they would find out their mistake in the future. They needed every foot of it to make the proper kind of basins. He didn't believe in these "banked up" basins, but thought they should be constructed with the banks just like a natural lake, and park improvements made around them. Then, too, they needed the land to separate the basins from anything else; they couldn't be crowded in.

He thought the land very reasonable. The people could get more for it from other parties.

Mr. CAMPBELL wanted to know if any set of viewers would allow Mr. Negley $3,000 for his land, per acre. He thought that a pretty steep price.

Mr. CARROLL said they had been credibly informed that it could be sold for $5,000 to $6,000 per acre.

President OLIVER said he had been asked $5,000 for property in that vicinity.

Common Council here went into joint session.

Upon reassembling Mr. Carroll obtained the floor and made a statement in reference to the negotiations with Mr. Morgan. At first the gentleman proposed to sell his two acres of land, including the dwelling house and a leasehold of eleven years, of property running to the river, over which the pipes would have to pass, for $40,000. This proposition the Commission would not accept, and finally they told him they would get viewers on his property (the two acres) and condemn it. He then consented to sell it alone for $20,000, and to grant them the right of way over his leasehold as long as he held it. The Commission thought this extremely reasonable and thought it ought to be accepted.

Mr. CARROLL further explained that the Commission had assurances from the owner of the property over which the pipes passed that he would give them the right of way when the lease had expired.

Mr. CARROLL then moved a suspension of the rules to proceed to a vote on the six (the whole number) resolutions embraced in the Commission's report. The yeas and nays were called on the motion, resulting as follows:

Ayes—Messrs. Arthurs, Arensburg, Barr, Baum, Beymer, Bindley, Cameron, Campbell, Carroll, Darlington, Deitrich, Dickson, Follansbee, Fulton, Galisath, Gray, Gazzam, Hare, Hauch, Jones, Johns, Kerr, Kohne, Koverman, Kurtz, Lappan, Liebler, Mattern, Meyer, Moffit, Jos. Moore, John Moore, Morgan, Moseley, McCandless, McConway, McGimpsey, R. H. Negley, W. B. Negley, Price, Raible, Ramsey, Schild, Semple, Sneathen, Sprever, Verner, Watson, Williams, Woolslayer, Young, President Oliver—52.

Nays—Messrs. Patterson, Pender, Riley and Rush—4.

Mr. MCCANDLESS wanted to know something in regard to the negotiations for the McCully property.

Mr. WATSON gave a detailed statement of his interview with Mr. McCully, in which he (McCully) was disposed to enter into contract for the sale of the land, but afterwards refused to do so, and had persisted since in that decision; hence the Commission proposed to put on viewers and condemn the property.

A vote was then taken on a concurrence with S. C. on final passage of the resolutions. The yeas and nays were called, with the following result:

Yeas—Messrs. Allen, Arthurs, Arensburg, Barr, Barker, Baum, Beymer, Bindley, Cameron, Campbell, Carroll, Darlington, Deitrich, Dickson, Follansbee, Fulton, Galisath, Gray, Gazzam, Hare, Hauch, Jones, Johns, Kerr, Kohne, Koverman, Kurtz, Lappan, Liebler, Mattern, Meyer, Moffitt, Joseph Moore, John Moore, Morgan, Moseley, McCandless, McConway, McGimpsey, R. H. Negley, W. B. Negley, Price, Raible, Ramsey, Schild, Spreyer, Verner, Watson, Williams, Woolslayer, Young, President Oliver—52.

Nays—Messrs. Neeson, Patterson, Pender, Riley, Rush, Semple—6. So C. C. concurredr

Mr. MCCANDLESS moved that as they were compelled by law to meet Tuesday, February 6th, to elect members of the Board of Guardians, that they adjourn to meet at that time, when the appropriation ordinance could be considered.

Mr. HARE—We can't meet again until we settle that appropriation ordinance.

Mr. MCCANDLESS held to his motion, and insisted upon a vote, when the motion was voted down.

Mr. JOHNS presented a remonstrance against the report of viewers on opening of Pearl street. Referred to Road Committee.

Mr. HARE called up the appropriation ordinance.

President OLIVER then read this document.

On motion, the yeas and nays were called on, the suspension of the rules to consider the appropriation ordinance, with the following result:

Ayes—Messrs. Allen, Arthurs, Arensberg, Barr, Baum, Beymer, Bindley, Cameron, Campbell, Carroll, Darlington, Deitrich, Dickson, Duff, Follansbee, Fulton, Galisath, Gray, Gazzam, Hare, Hauch, Jones, Johns, Kohne, Kurtz, Lappan, Mattern, Meyer, Moffitt, Joseph Moore, John Moore, Morgan, Moseley, McCandless, McConway, McGimpsey, R. H. Negley, W. B. Negley, Patterson, Pender, Price, Raible, Ramsey, Riley, Rush, Schild, Semple, Spreyer, Verner, Watson, Williams, Woolslayer, Young, Oliver President.

Nays—none.

Dr. MCCANDLESS moved the final passage of the ordinance.

President OLIVER directed the yeas and nays to be called.

Mr. NEGLEY thought as there was no objection the yeas and nays were not necessary.

Mr. ARENSBERG—I do object. I object to the appropriation for the Fire Department.

President OLIVER—There it is. We'll take the yeas and nays.

The Clerk then called the roll with the following result:

Ayes—Allen, Arthurs, Barr, Baum, Beymer, Bindley, Cameron, Campbell, Carroll, Darlington, Deitrich, Dickson, Follansbee, Galisath, Gray, Gazzam, Hare, Hauch, Jones, Kerr, Kohne, Mattern, Meyer, Moffitt, Joseph Moore, John Moore, Morgan, McCandless, McConway, McGimpsey, R. H. Negley, W. B. Negley, Patterson, Pender, Price, Raible, Riley, Schild, Spreyer, Verner, Watson, Williams, Woolslayer, and President Oliver—44.

Nays—Arensburg, Fulton, Kurtz, Lappan, Ramsey, Semple, and Young—7.

Councils then adjourned.

JOINT SESSION.

Joint session convened in the Common Council chamber, and was called to order by President Gross of the Select Branch. He stated the object of the gathering to be the election of three persons to fill three vacancies in the Board of Health, occasioned by the expirations of the terms of Messrs. Wm. B. Hays, E. House and F. Ardary.

The nominations were then proceeded with.

Mr. MORROW, before proceeding to a ballot moved that the three persons receiving the highest number of votes be declared elected. Carried.

The ballot resulted as follows:

W. B. Hays, Jr.	49	W. T. Asdale	49
*Ed. House	65	D. L. Fleming	37
*A. Arthurs	68	J. J. Covert	13

The President announced, according to this count the election of Messrs. House and Arthurs, and a tie vote between Messrs. Asdale and Hays.

Mr. BURGWIN—I move that the clerks be instructed to put two ballots with the names of these gentlemen written, one on each, into a hat and draw from it.

A chorus of voices objected to this procedure, which seemed to elicit much merriment and the mover withdrew it.

A second ballot was taken, which resulted in the election of Mr. Hays, who received 46 votes, to 38 for Mr. Asdale. The new members then were announced as Messrs. Edward House, Dr. A. Arthurs, and Wm. B. Hays, Jr.

Joint Session then adjourned.

POLICE NOTES.

Brief Mention of Criminalities Yesterday.

Alderman McMasters yesterday morning was called upon by J. A. Brown, who introduced the day's business by making information charging Thomas Stewart with larceny by bailee for retaining the stakes in a bet of five dollars. Stewart was sent for.

B. Miller Clark, the constable of the village of Mansfield is charge with collecting and retaining $36.29 of George Watson's money, for which George yesterday sued him before Alderman McMasters, who issued a warrant for his arrest.

Robert Barnett, if a certain information made before Alderman McMasters yesterday be true, has been choking Mrs. Thomas Dougherty, and was held to give bail for a hearing on the charge.

Alderman McMasters had two "desertion" cases before yesterday morning. Mrs. Agnes Neely, of Sewickly, alleges that her husband, Robert Neely, had deserted and abandoned her, and refuses to contribute to her support, although well able to keep her comfortably. Mrs. Mary Bottles, of Allegheny, alleges that her husband, George W. Bottles has deserted her, and she appeals to the law to compel him to contribute to her support. Warrants issued in both cases.

Yesterday morning Mayor Callow committed Theodore Funk, D. Thomas, John Stevens, George Wilson and John Sullivan to the work house for thirty days each—agreeable to their own requests.

The firm of Farrell & English, draymen, was dissolved a few days ago, and a lawsuit is the result. Farrell says after the dissolution, English sent his team to the country and then borrowed his (Farrell's), which he sold for $268 and pocketed the money. Alderman Strain has been called in to settle the dispute.

The New Pittsburgh Piano and Organ House, 51 Fifth Avenue.

During our regular walk around the city, yesterday afternoon, (a little cold to be sure) we called upon the New Pittsburgh Piano and Organ Agents, Messrs. S. Hamilton & Co. We were very agreeably entertained and delighted, as well, upon being shown through their large and spacious warerooms, and listening to the musical effects of the many musical instruments that Messrs. Hamilton & Co., are the agents of. The Salesrooms, No. 51 Fifth avenue, are very easy of access, and when once in them the interviewer seems loth to leave, and more than this, the instruments that are found at this house are from some of the best standard manufacturing companies of the country. Their agency, comprises a list which must meet with popular favor, such as Decker & Barnes' unrivaled pianos, Cramer & Co.'s full iron frame, over-strung brass, and French grand action which are fully warranted for six years, a matter which ought to be well considered and taken into account by all who contemplate the purchasing of a Piano. They are also dealers in the "famed" Bradford & Co., pianos, whose reputation at present stand unsullied. Of the organs which are by many considered preferable to a piano. We would mention that the Taylor & Farley organ of which this house are the sole agents, seems to have a precedence over many other makes, owing greatly to perfection of the attachments and combination—improvements which commends the attention and admiration of all who have ever seen or heard those instruments. We will not go into any detail, but advise that this house may be favored with a call and a thorough inspection made of the quality, tone, and durability of the musical wares they have in stock and the merits of the companies, manufactures, that they represent. Messrs. Hamilton & Co., are gentlemen who have an excellent reputation for honesty and square dealing, and are entitled to the confidence of the people. Give them a call at their warerooms No. 51 Fifth avenue.

A Comfortable Surplus.—The Homestead Bank has an undivided surplus of over fifty thousand dollars.

A Marble House in Pittsburgh wrote East to three different manufacturers of marbleized mantels to know at what price they would sell marbleized mantels by wholesale. Reply came, "cannot sell as low as W. W. Wallace. There is no use in making you an offer, we cannot compete with him." W. W. Wallace has had a long practical knowledge of the business, has all the advantages of steam power, and is the only place in Western Pennsylvania where marbelized mantels are manufactured. (All others sold here are brought from the East and sold second-handed.) His stock is the largest, prices the lowest, styles the latest, and workmanship the best. Grates, Fronts, Ranges and Hot Air Furnaces of the latest and most improved patterns, and superior to any brought here from other cities and at lower prices. Cur office and warerooms, 319 and 321 Liberty street, first and second floors, one square below Grain Elevator.

N. B.—He is now getting up (to be patented) new machinery for cutting all the mouldings on fronts, &c., of mantels, which will give him further advantages and enable him to still reduce prices and expedite work. Purchasers will save money by calling at 319 Liberty street. W. W. WALLACE.

American Fish for England.

The Rochester *Advertiser* of the 9th says: An order recently came from England, from the Marquis of Exeter, for the spawn of certain kinds of fish found here, which have not been introduced into the waters of that country. The Marquis is said to be much interested in fish culture. This order, received by Hon. R. B. Roosevelt, one of the Fish Commissioners, was sent to Seth Green, who has just filled it. Mr. Green has put up in proper packages for transportation across the Atlantic a quantity of the ova of the salmon trout, which will, no doubt, go safely to their destination, and there be developed in good order. A quantity of young white fish were also put in cans and sent with the trout. The order came too late to send the ova. It is more doubtful about the success of this experiment of transporting the developed fish. White fish have, however, been kept alive in a can of water twelve days, and the time these will be enclosed will not greatly exceed that. A messenger left for New York last night with these fish. It is hoped that the experiment will be successful, and that some of the European fish may in like manner be imported to American waters and made useful to our people.
